

Dental Referral List by County

Significant Health Choice Providers

Health Choice recipients may receive dental treatment from any dentist who is willing to provide dental care to Health Choice recipients. This list includes only those dental practices and clinics that filed claims for at least five new Health Choice recipients during the last quarter. Although the providers listed here may be more likely to accept new Health Choice recipients, you should confirm this by contacting the provider of your choice in your area. These dental practices and clinics are sorted by county.
