North Carolina Pre-Service Training Transfer of Learning Tool (ToL) Foundation Training

Instructions

The Pre-Service Transfer of Learning (ToL) tool is a comprehensive and collaborative activity for workers and supervisors to work together in identifying worker goals, knowledge gain, and priorities for further development throughout the pre-service training process. In four distinct steps, the worker and supervisor will highlight their goals and action plan related to participating in training, reflect on lessons and outstanding questions, and create an action plan to support worker growth. The tool should be started prior to beginning Foundation Training and re-visited on an ongoing basis to assess growth and re-prioritize actions for development.

Prior to completing any e-Learning and in-person Foundation Training sessions, the worker and supervisor should meet to complete **Part A: Training Preparation.** In this step, the worker and supervisor will discuss their goals for participation in training and develop a plan to meet those goals through pre-work, other opportunities for learning, and support for addressing anticipated barriers.

In **Part B: Worker Reflections During Training**, the worker will document their thoughts, top takeaways, and outstanding questions regarding each section. This level of reflection serves two purposes. First, the practice of distilling down a full section of training into three takeaways and three remaining questions requires the worker to actively engage with the material, subsequently forming cognitive cues related to the information for future use in case practice. Second, prioritizing takeaways and questions by section allows workers to continually review information to determine if questions are answered in future sessions and supports the development of an action plan by requiring workers to highlight the questions they find most important.

Part C: Planning for Post-Training Debrief with Supervisor asks the worker to consider the takeaways and questions they identified in each section and provides them with a framework to transfer those takeaways and questions into an action plan. Following the worker's preparation, **Part D: Post-Training Debrief with Supervisor** provides an opportunity for the supervisor and worker to determine a specific plan of action to answer outstanding questions and to further support worker training.

While this ToL is specific to the Foundation Training in the Pre-Service Training: Child Welfare in North Carolina, workers and supervisors can review the takeaways and questions highlighted by the worker in each section of training on an ongoing basis, revising action steps when prior actions are completed and celebrating worker growth and success along the way.

Part A: Training Preparation

Date of pre-training meeting with supervisor and social worker:

Social Worker Goals

What do you hope to get out of Foundation training? What do you want to walk away from the training knowing or doing?

Supervisor Goals

What does the supervisor want the social worker to walk away from Foundation training knowing or doing?

Planning

List any questions you would like answered during Foundation training.

List current opportunities you might want to apply to learning during and after Foundation training.

List any steps you will take to prepare for Foundation training (e.g., review NC Child Welfare Policy Manual)

What are potential barriers to course attendance and full participation?

What supports will be put in place to address the barriers identified above? (e.g., no calls during training days)
