DEAF & HARD OF HEARING NON-SIGNERS

We're collecting stories across North Carolina to learn where communication barriers affect Deaf, Hard of Hearing, and DeafBlind individuals.

We know that many individuals with hearing loss rely on communication modes other than sign language. We want to hear from non-signers about the barriers you encounter in daily life and your ideas for improving communication access across the state.

CART captioning will be provided. You can request additional accommodations when you RSVP.
