Child/Adolescent Discharge/Transition Plan			
This document must be submitted with the completed ITR, the required PCP (i.e. introductory, complete or update) and any other supporting documentation justifying the request for authorization and reauthorization of Residential Levels III and IV. In addition, for reauthorization of Residential Level III and IV, a new comprehensive clinical assessment by a psychiatrist (independent of the residential provider and its provider organization) that includes clinical justification for continued stay at that level of care is required to be submitted. An incomplete ITR, PCP or lack of Discharge/Transition Plan and a new comprehensive clinical assessment (when applicable) will result in a request being "unable to process".
