GUIDE TO COMPLETING THE CHILD WELFARE STAFFING - MONTHLY DATA REPORT

PURPOSE

This Child Welfare Data Workbook was developed to collect data that is requested by a wide variety of sources including:

- the General Assembly,
- the Administration for Children and Families,
- researchers, and
- county child welfare agencies.

This data is used for information and planning at the local, state, and federal level. At the state level, this data provides:

- capacity for the delivery of child welfare services provided at the county level
- assessment public child welfare system needs
- measure of where state resources should be invested
- identify trends

Locally, this information can be used to provide:

- an monthly overview of child welfare activity in the agency,
- a means to identify strengths and needs in the provision of services
- assess potential issues in work flow before they become problems;
- assure effective use of the child welfare workforce;
- identify trends in child welfare.

SUBMISSION OF DATA

The workbooks are submitted to the Division of Social Services quarterly by the last day of the month following the end of the quarter: April 30, July 31, October 31, and January 31.

TIMELINESS

Timely submission of the data is critical to make this information valuable. All of the data is relational: it needs a context for appropriate interpretation. The context is the data from all 100 counties. Having the data submitted timely will enable the Division to share data to interpret individual county data in the context of the larger system.

ABOUT FULL TIME EQUIVALENTS (FTE's)

Full Time Equivalents, or FTE's, are the units of measure that is used in this Report. FTE's are **not people** in child welfare positions, but the **positions** that are budgeted for child welfare. These are best observed on your agency's organizational chart as the boxes with the position titles in them.

An FTE can be divided among a number of functions in Child Welfare. In some instances the FTE breakdown can best be derived by looking at the **time assigned** to tasks.

For example, the 5 FTE's in a unit that does CPS assessments may cover CPS Intake and complete Assessments. Each Assessor may be assigned to cover Intake 1 day per week, and spends half that day actually doing Intake. The breakdown would look like this:

Total time for an FTE:	40 hours
Time doing CPS Intake:	4 hours or 10%
Time doing CPS Assessments:	36 hours or 90%

So, if you have a unit of 5 FTE's that do these tasks, record for CPS Intake .5 (or 10% of 5 FTE's) for CPS Assessments 4.5 (or 90% of 5 FTE's)

In other instances, it may be easier to calculate the breakdown of a multi function FTE by looking at the **workload size**. For example, an FTE that manages a blended Foster Care and Adoption caseload carries 10 children whose parental rights are intact and 5 whose parental rights are terminated and the plan is adoption. The breakdown would look like this:

Foster Care: 10 children/15 children standard = 67% Adoption: 5 children/15 children standard = 33% For this FTE, record Foster Care .67 FTE Adoption: .33 FTE

In agencies in which child welfare workers carry multiple types of cases, calculate the FTE's as close as possible to the percentages of the caseloads.

FORMAT

The Workbook has 13 individual pages: 1 for each of 12 months and a year-to-date (YTD) sheet. The tabs at the bottom of the screen enable access to each of the monthly pages.

Do not make changes in the format of the workbooks. When submitted, the county workbooks are entered into a larger workbook to derive statewide totals. Any changes in format will skew the results when inserted into the state workbook.

All data entries are made on the 12 monthly sheets. The YTD sheet is password protected and provides an overview of all the data entered on the monthly sheets and provides a longitudinal view of the year's data.

On the monthly sheets, **only the cells in which information is needed are unprotected**. The rest of the cells are protected to prevent accidental erasing of calculations.

If a county wants to **add additional data for local use,** please contact a Children's Program Representative to add the local requirements to the workbook.

MONTHLY SHEET INSTRUCTION FOR COMPLETION

The Monthly sheets provide the information which is imported onto the Year to Date, or YTD sheet.

A quick-guide for understanding the data required in each cell follows. Each cell is identified by the Column and Row it is located.

Line 1 provides a listing of the common service groupings for which funding is tracked.
