How to share a 2-minute statement at a public input session

Please help us ensure everyone has a chance to speak by following these guidelines:

1. Before the session begins, sign up at the registration desk.

2. You'll receive a number based on the order in which speakers have signed up.

3. After the presentation, go to the microphone when your number is called.

4. Please keep statements to 2 minutes.

A timekeeper will hold up a sign after 1 minute, and another sign when your time is up.

If you have more to say after 2 minutes, ask to be re-added to the list of speakers. If there is time remaining before the session ends, you're welcome to add more comments.
