NC Mental Health and Substance Use Service Array Survey

Table 2

Service (and 2-3 sentence description)	Home Based Services for Sex Offenders (Sex Offender Treatment)	Our program offers services to clients who have been adjudicated for a sexual offense and are ordered by the Court to participate in an evaluation and/or treatment. The objective of the program is to provide a broad range of services to allow these youth to remain in their homes, promote safety in the community, and to prevent further sexual abuse. Services include safety and treatment planning, case management, 24/7 on call, comprehensive evaluations, individual, group and family therapy
	Adolescent Substance Abuse Assessment and Treatment (Substance Abuse Group Counseling)	The treatment component of this program serves youth between the ages of twelve to seventeen who have received a substance use assessment and been recommended to complete a low intensity outpatient treatment program. Adolescents served will meet criteria for a substance use disorder according to DSM. They will also have met ASAM program placement criteria for Level One treatment
	Adolescent Substance Abuse Assessment and Treatment (Substance Abuse Assessments)	Adolescent Substance Abuse Assessment Services serves youth between the ages of 12 and 17 who are considered high risk for involvement in alcohol/other drug use. Referrals are accepted from juvenile court counselors, community agencies and concerned individuals. Assessments of adolescents always include a clinical interview and at least one psychometric instrument. Information from collateral sources and from a urine drug screen is included in the assessment process when possible
	Just Girls (Group Counseling)	The Just Girls program provides a safe, gender specific, group counseling environment where at risk girls can learn self-esteem, build positive relationships with peers, adults, and the community. The goals of the program are to increase self-management and awareness, positive bonding and relationship skills, and reduce risk behaviors
	Sexual Abuse Intervention Services (Sex Offender Assessment) Burke	Sex offender specific evaluation and assessment for youth displaying sexually aggressive behavior or who have been charged with a sex offense in order to evaluate risk and make treatment recommendations
	Sexual Abuse Intervention Services (Sex Offender Treatment) Burke	Sex offender specific treatment for youth displaying sexually aggressive behavior, inappropriate sexual conduct or who have been charged with a sex offense. The treatment balances accountability, rehabilitation and community safety
	Psychological Services-Caldwell (Assessments)	This component provides comprehensive psychological and diagnostic assessments for court involved youth. These assessments are for the purpose of recommending diagnostic and treatment interventions
	Sexual Abuse Intervention Services (Sex Offender Assessment) Caldwell	Provides a sex offender specific evaluation and assessment for youth displaying sexually aggressive behavior, inappropriate sexual conduct or who have been charged with a sex offense
	Sexual Abuse Intervention Services (Sex Offender Treatment) Caldwell	Sex offender specific treatment for youth displaying sexually aggressive behavior, inappropriate sexual conduct or who have been charged with a sex offense. The treatment balances accountability, rehabilitation and community safety
RHA Behavioral Health Services (Substance Abuse Counseling/Individual)	RHA will provide therapeutic substance abuse services to court involved youth. The overarching goal is to address the substance use obstacles that impede youth social, emotional, and developmental tasks. RHA operates from a System of Care approach which supports the identification of the most appropriate services to build upon the youths strengths and positively impact their interactions in all life domains	

Juvenile Justice - West Programs, DACJJ
 NC Mental Health and Substance Use Service Array Survey

	Family Net of Catawba County (Psychological Evaluation)	This component covers the provision of psychological testing and/or comprehensive clinical assessments and the writing of the report of findings and recommendations
	Family Net of Catawba County (Sex Offender Assessment)	This program shall provide specific evaluation, counseling and treatment to juveniles and their families as outlined in an individualized needs-based, sex offender evaluation.
	Family Net of Catawba County (Mental Health)	This component covers all the various forms of mental health treatment provided to ACJJ clients, including individual, family, and group, as well as psychiatric intervention
	Family Net of Catawba County (Sex Offender Treatment)	This component covers the provision of substance treatment to ACJJ referred clients who meet the diagnostic criteria for abuse or dependence
	Psychological Services-McDowell (Assessments)	This program enables the court counselor to broker psychological services in the form of an assessment exclusively for court involved juveniles and their families. This facilitates identification of significant mental health needs and risk factors as well as development of appropriate recommendations to meet needs in local area. Services are provided in a more efficient timeline that is unmatched by other providers
	Sexual Abuse Intervention Services-McDowell (Sexual Offender Treatment)	Sex offender specific treatment for youth displaying sexually aggressive behavior, inappropriate sexual conduct or who have been charged with a sex offense. The treatment balances accountability, rehabilitation and community safety
	Sexual Abuse Intervention Services-McDowell (Assessments)	Sex offender specific evaluation and assessment for youth displaying sexually aggressive behavior or who have been charged with a sex offense in order to evaluate risk and make treatment recommendations
Key Terms (and definition)	JCC: Juvenile Court Counselor
