

# Appendices for MH/DD/SAS Community Systems Progress Report

**Fourth Quarter SFY 2011-2012**  
**April 1 – June 30, 2012**

Prepared by:  
Quality Management Team  
Community Policy Management Section  
Division of Mental Health, Developmental Disabilities, and Substance Abuse Services

September 25, 2012

These appendices are a companion document to the *Community Systems Progress Report*. Both the report and appendices are available on the Division's website at:

<http://www.ncdhhs.gov/mhddsas/statspublications/Reports/DivisionInitiativeReports/communitysystems/index.htm>

**Appendix A** contains the data tables for each Progress Indicator in the Report. Several indicators include county level data.

**Appendix B** contains a list of Local Management Entities (LMEs) and provides information on member counties, county and LME population, population density (persons per square mile) for each county, urban/rural designation, the number of persons and the percentage of county population enrolled in Medicaid.

**Appendix C** explains the formulas used for calculating each performance indicator.

**Appendix D** is included only when a report has been revised. It explains any revisions that have been made to the report.

**Note:** In SFY2011-2012, the state began expansion of its Medicaid 1915 (b)/(c) waiver using a managed care approach to providing mental health, developmental disabilities, and substance abuse services to Medicaid recipients. On October 1, 2011 Alamance-Caswell LME joined PBH who was already operating as a Managed Care Organization (MCO) under the waiver. In January 2012, Five County LME joined PBH and Western Highlands Network became an MCO operating under the waiver. In April 2012, OPC LME joined PBH, and East Carolina Behavioral Health LME became an MCO. Additional LMEs are scheduled to begin operating under the waiver in July and October of 2012 with all remaining LMEs operating under the waiver beginning January 2013.

As these changes occurred, Medicaid claims data for these LMEs became temporarily unavailable to the state Medicaid claims database. **This has affected results for some of the claims-based performance measures in this report.** For some measures, partial data was used. For other measures, all data for an LME was excluded. **Please pay careful attention to the data periods and footnotes under the tables in the Appendices.**

The state has taken steps to collect and incorporate the claims data for these LMEs from the date they started operating under the waiver forward. Until this process is complete, please be careful when comparing performance for this quarter to prior quarters.

*Appendix A: Data Tables For Each  
Progress Indicator*

<b>INDICATOR 1: SA Prevention and Early Intervention - Persons Completing "Selective" and "Indicated" Programs</b>						
<b>LME</b>	<b>Program</b>	<b>Program Type (Selective/ Indicated)</b>	<b>Number Completed</b>	<b>Population (Ages 6 - 17)</b>	<b>Number Of Youth "At Risk" For SA</b>	<b>Percent Of "At Risk" Youth That Completed A Program</b>

**This indicator measures** the percentage of youth (ages 6-17) that are "at risk" of having a substance abuse disorder that completed an evidence-based "Selective" or "Indicated" Substance Abuse Prevention Program during the measurement year.

**Measurement Year:** The moving one-year period ending the last day of the prior quarter (July 1, 2011 - June 30, 2012).

**Selective Prevention Programs** target individuals whose risk of developing substance abuse disorders is significantly higher than average (based on biological, psychological, or social risk factors).

**Indicated Prevention Programs** target high-risk individuals who are identified as having minimal but detectable signs or symptoms foreshadowing a substance abuse disorder.

**Number Completed:** Numbers completed are based on data entered in the North Carolina Prevention Outcome Performance System (NC-POPS). Programs without a number completed were approved for use by providers but no numbers were reported as completing during the measurement year.

**Population Data:** NC Office of State Budget and Management (OSBM), July 2011 Estimated Population: [http://www.osbm.state.nc.us/demog/countytotals\\_singleage\\_2011.html](http://www.osbm.state.nc.us/demog/countytotals_singleage_2011.html). Last updated: 2/23/12. Downloaded: 4/24/12

**Number Of Youth "At Risk":** Calculated by multiplying the percent of youth (ages 6-17) in each LME by a prevalence factor selected from a review of the most recent available NC survey results from the National Survey on Drug Use and Health (NSDUH), available at the SAMHSA website: <http://oas.samhsa.gov/2k9state/Cover.pdf>, and the NC Youth Risk Behavior Survey (YRBS), available at the NC Healthy Schools website: <http://www.nchealthyschools.org/docs/data/yrbs/2009/middleschool/statewide/tables.pdf>. A number of results were considered, and two were selected to serve as proxy measures of the number of youth "at risk" for developing substance abuse.

For youth (ages 6-11), 13.6% of respondents (ages 11 or younger) to Question 25 of the NC YRBS 2009 Middle School Survey "ever had a drink of alcohol, other than a few sips". A smaller percentage reported using illicit drugs or tobacco in response to other questions. If data for these substances were to be included, the percentage "at risk" for all types of substance abuse may be higher.

For youth (ages 12-17), 10.29% of youth (ages 12-17) in NC have used illicit drugs in the past month, as reported in Table B.1 Illicit Drug Use in Past Month, by Age Group and State: Percentages, Annual Averages Based on 2008 and 2009 NSDUHs, published June 2011. Illicit drugs include nine categories of illicit drugs: marijuana/hashish, cocaine (including crack), heroin, hallucinogens, inhalants, and the nonmedical use of prescription-type pain relievers, tranquilizers, stimulants, and sedatives. This percentage does not include alcohol or tobacco use. If data for these substances were to be included, the percentage "at risk" for all types of substance abuse may be higher.

INDICATOR 2: Timely Access to Care (Urgent Care)

\* "Appointment Within 48 Hours Offered - Declined" includes consumers that were offered one or more appointments at reasonable times within the target time frame but either:

- declined the offered appointment for personal convenience or necessity and requested an appointment outside the target time frame, or
- were initially scheduled for an appointment within the target time frame but later rescheduled it to a date/time outside the target time frame.

NOTE: Percentages have been rounded. The sum of percentages across each row are not expected to equal 100%.

SOURCE: Medicaid and State Service Claims Data for the one year period: April 1, 2011 to March 31, 2012 based on claims paid through July 31, 2012.

\* Persons served data for PBH LME is self-reported as it is operating under a Medicaid waiver and its Medicaid data is not included in the paid claims database. The data includes persons served paid by Medicaid and IPRS.

\*\* Persons served for the other Medicaid Waiver sites that have implemented the waiver include IPRS data received for the measurement year and Medicaid data available to DMH/DD/SAS prior to waiver implementation. The data does not include new persons served and paid by Medicaid after the waiver was implemented. Alamance-Caswell data includes persons reported through IPRS for the year plus persons paid by Medicaid from April - September 2011.

Five County and Western Highlands Network data includes persons reported through IPRS for the year plus persons paid by Medicaid from April - December 2011. Actual numbers of persons served during the year for these LMEs will be higher. DMH/DD/SAS produced partial year counts were used in this report because it is not possible to unduplicate counts across the state and LME systems until encounter data for waiver services becomes available.

**Data Sources and Calculations**

**Population Data:** NC Office of State Budget and Management (OSBM). [http://www.osbm.state.nc.us/demog/countytotals\\_singleage\\_2011.html](http://www.osbm.state.nc.us/demog/countytotals_singleage_2011.html)

Last updated: 2/23/12 Downloaded: 4/24/12

**MH Prevalence Rates:** Prepared by NRI/SDICC for CMHS, July 6, 2010 (for the MH Block Grant)

Children: URS Table 1: Children with Serious Emotional Disturbance, ages 9-17, by State, 2009. Note: 11% is the midpoint (10%-12%) for the LOF=60 range (SED with substantial functional impairment). The same rate was applied to children under age 9.

Adults: URS Table 1: Number of Persons with Serious Mental Illness, age 18 and older, by State, 2009 = 5.4%.

Per SAMHSA/CMHS (8/17/11), 2010 prevalence estimates based on 2010 Census data are not available. Continue to use 2009 estimates (referenced above).

**NC Substance Abuse Prevalence Rates:** SAMHSA, Office of Applied Studies, National Surveys on Drug Use and Health, 2008 and 2009, published June 2011.

Table B.20, Dependence on or Abuse of Illicit Drugs or Alcohol in Past Year, by Age Group and State: Percentages, Annual Averages Based on 2008 and 2009 NSDUHs. Prevalence rate for adolescents (ages 12-17) is 6.00%. Prevalence for adults (ages 18-25) is 17.36% and for adults (ages 26+) is 6.32%. Total (age 12+) = 7.68%. Applying these age group rates to projected July 2011 population results in a statewide total (age 12+) rate of 7.82%.

**DD Prevalence Rates:** Larson, S., Lakin, C., Anderson, L., Kwak, N., Lee, J.H., & Anderson, D. (2000). Prevalence of MR and/or DD: Analysis of the 1994/1995 NHIS-D. MR/DD Data Brief, April 2000, Vol 2, No. 1. Minneapolis: University of Minnesota, Research and Training Center on Community Living, Institute on Community Integration. The NHIS-D is the National Health Interview Survey (NHIS) Disability Supplement used to estimate the prevalence of people with MR and/or DD in the US Non-Institutional Population. According to the article, prevalence rates for persons ages 3-5 = 3.84%, ages 6-17 = 3.17%, and ages 18+ = 0.79%. Based on July 2011 NC projected population, and excluding children ages 0-2 who receive services from DPH, 1.30% of the total NC non-institutionalized population and 1.32% of the total population (including persons in institutions) are estimated to have MR and/or DD. If persons ages 0-2 were to be included, the prevalence rate for the non-institutionalized population would be 1.40% and the prevalence rate for the total population would be 1.42%.

**Estimated Persons in Need Of Services:** These numbers were calculated by multiplying the most current available statewide prevalence rates for NC for MH, DD, and SA by the July 2011 county population projections for each relevant age group for each county in each LME's catchment area.

**Persons Served:** Disability group is based on the first three diagnoses on all claims. Persons in each disability group were counted once -- based on the LME and age at first service in the year. Persons with multiple disabilities (e.g. MH and SA, MH and DD, etc.) were counted in all applicable columns. An unduplicated total of 123,946 children and 235,711 adults were served during this 12 month period (or more considering AC, FC, and WHN are partial numbers).

SOURCE: Medicaid and State Service Claims Data for the one year period: April 1, 2011 to March 31, 2012 based on claims paid through July 31, 2012.

\* Persons served data for PBH LME is self-reported as it is operating under a Medicaid waiver and its Medicaid data is not included in the paid claims database. The data includes persons served paid by Medicaid and IPRS.

\*\* Persons served for the other Medicaid Waiver sites that have implemented the waiver include IPRS data received for the measurement year and Medicaid data available to DMH/DD/SAS prior to waiver implementation. The data does not include new persons served and paid by Medicaid after the waiver was implemented. Alamance-Caswell data includes persons reported through IPRS for the year plus persons paid by Medicaid from April - September 2011.

Five County and Western Highlands Network data includes persons reported through IPRS for the year plus persons paid by Medicaid from April - December 2011. Actual numbers of persons served during the year for these LMEs will be higher. DMH/DD/SAS produced partial year counts were used in this report because it is not possible to unduplicate counts across the state and LME systems until encounter data for waiver services becomes available.

**Data Sources and Calculations**

**Population Data:** NC Office of State Budget and Management (OSBM). [http://www.osbm.state.nc.us/demog/countytotals\\_singleage\\_2011.html](http://www.osbm.state.nc.us/demog/countytotals_singleage_2011.html)

Last updated: 2/23/12 Downloaded: 4/24/12

**MH Prevalence Rates:** Prepared by NRI/SDICC for CMHS, July 6, 2010 (for the MH Block Grant)

Children: URS Table 1: Children with Serious Emotional Disturbance, ages 9-17, by State, 2009. Note: 11% is the midpoint (10%-12%) for the LOF=60 range (SED with substantial functional impairment). The same rate was applied to children under age 9.

Adults: URS Table 1: Number of Persons with Serious Mental Illness, age 18 and older, by State, 2009 = 5.4%.

Per SAMHSA/CMHS (8/17/11), 2010 prevalence estimates based on 2010 Census data are not available. Continue to use 2009 estimates (referenced above).

**NC Substance Abuse Prevalence Rates:** SAMHSA, Office of Applied Studies, National Surveys on Drug Use and Health, 2008 and 2009, published June 2011.

Table B.20, Dependence on or Abuse of Illicit Drugs or Alcohol in Past Year, by Age Group and State: Percentages, Annual Averages Based on 2008 and 2009 NSDUHs. Prevalence rate for adolescents (ages 12-17) is 6.00%. Prevalence for adults (ages 18-25) is 17.36% and for adults (ages 26+) is 6.32%. Total (age 12+) = 7.68%. Applying these age group rates to projected July 2011 population results in a statewide total (age 12+) rate of 7.82%.

**DD Prevalence Rates:** Larson, S., Lakin, C., Anderson, L., Kwak, N., Lee, J.H., & Anderson, D. (2000). Prevalence of MR and/or DD: Analysis of the 1994/1995 NHIS-D. MR/DD Data Brief, April 2000, Vol 2, No. 1. Minneapolis: University of Minnesota, Research and Training Center on Community Living, Institute on Community Integration. The NHIS-D is the National Health Interview Survey (NHIS) Disability Supplement used to estimate the prevalence of people with MR and/or DD in the US Non-Institutional Population. According to the article, prevalence rates for persons ages 3-5 = 3.84%, ages 6-17 = 3.17%, and ages 18+ = 0.79%. Based on July 2011 NC projected population, and excluding children ages 0-2 who receive services from DPH, 1.30% of the total NC non-institutionalized population and 1.32% of the total population (including persons in institutions) are estimated to have MR and/or DD. If persons ages 0-2 were to be included, the prevalence rate for the non-institutionalized population would be 1.40% and the prevalence rate for the total population would be 1.42%.

**Estimated Persons in Need Of Services:** These numbers were calculated by multiplying the most current available statewide prevalence rates for NC for MH, DD, and SA by the July 2011 county population projections for each relevant age group for each county in each LME's catchment area.

**Persons Served:** Disability group is based on the first three diagnoses on all claims. Persons in each disability group were counted once -- based on the LME and age at first service in the year. Persons with multiple disabilities (e.g. MH and SA, MH and DD, etc.) were counted in all applicable columns. An unduplicated total of 123,946 children and 235,711 adults were served during this 12 month period (or more considering AC, FC, and WHN are partial numbers).

SOURCE: Medicaid and State Service Claims Data, January 1 - March 31, 2012 (first service received) based on claims paid through July 31, 2012.

\*\* For persons receiving 2 visits within the first 14 days of service.

- Data for PBH, Alamance-Caswell, and Five County LMEs is self-reported as these LMEs are operating under a Medicaid waiver.
- Data for ECBH and OPC may be incomplete as it does not include Medicaid claims for subsequent services provided after March 31, 2012 when these LMEs began operating under the Medicaid Waiver. This may undercount results for persons with an initial service at the end of March.
- Western Highlands Network Medicaid data was not available this quarter as they are operating under a Medicaid waiver.
- Percentages should **NOT** total 100% across the LME or county row.

This measure excluded due to the unavailability of Medicaid data under the waiver.

SOURCE: Medicaid and State Service Claims Data, January 1 - March 31, 2012 (first service received) based on claims paid through July 31, 2012.

\*\* For persons receiving 2 visits within the first 14 days of service.

- Data for PBH, Alamance-Caswell, and Five County LMEs is self-reported as these LMEs are operating under a Medicaid waiver.
- Data for ECBH and OPC may be incomplete as it does not include Medicaid claims for subsequent services provided after March 31, 2012 when these LMEs began operating under the Medicaid Waiver. This may undercount results for persons with an initial service at the end of March.
- Western Highlands Network Medicaid data was not available this quarter as they are operating under a Medicaid waiver.
- Percentages should **NOT** total 100% across the LME or county row.

SOURCE: Medicaid and State Service Claims Data, January 1 - March 31, 2012 (first service received) based on claims paid through July 31, 2012.

\*\* For persons receiving 2 visits within the first 14 days of service.

- Data for PBH, Alamance-Caswell, and Five County LMEs is self-reported as these LMEs are operating under a Medicaid waiver.
- Data for ECBH and OPC may be incomplete as it does not include Medicaid claims for subsequent services provided after March 31, 2012 when these LMEs began operating under the Medicaid Waiver. This may undercount results for persons with an initial service at the end of March.
- Western Highlands Network Medicaid data was not available this quarter as they are operating under a Medicaid waiver.
- Percentages should **NOT** total 100% across the LME or county row.

This measure excluded due to the unavailability of Medicaid data under the waiver.

SOURCE: Medicaid and State Service Claims Data, January 1 - March 31, 2012 (first service received) based on claims paid through July 31, 2012.

\*\* For persons receiving 2 visits within the first 14 days of service.

- Data for PBH, Alamance-Caswell, and Five County LMEs is self-reported as these LMEs are operating under a Medicaid waiver.
- Data for ECBH and OPC may be incomplete as it does not include Medicaid claims for subsequent services provided after March 31, 2012 when these LMEs began operating under the Medicaid Waiver. This may undercount results for persons with an initial service at the end of March.
- Western Highlands Network Medicaid data was not available this quarter as they are operating under a Medicaid waiver.
- Percentages should **NOT** total 100% across the LME or county row.

INDICATOR 5: Timely Support For Persons With Intellectual or Developmental Disabilities														
LME	County	Seen in 0 to 14 days		Seen in 15 to 30 days		Seen in 0 to 30 days		Seen in 31 to 60 days		Seen in 61+ days		Not Seen		Total Screened
		Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent	

**NOTES:**

The above data represents persons with I/DD who were triaged by LMEs between **January 1, 2012 - March 31, 2011** and determined to have "routine" care needs (based on LME Screening-Triage-Referral (STR) data in the Client Data Warehouse (CDW) as of 8/22/12) that received a Medicaid or state-funded community-based mhdds service within the timeframes indicated (based on Medicaid and IPRS claims paid through 7/31/12). Persons are assigned to an LME based on county of eligibility on the claim form, or if no claim was found, based on county of residence in the CDW data. The data excludes persons that received a Medicaid or IPRS paid service within 60 days prior to the date of screening, persons that received services from state facilities, and persons with unknown county of residence. The claims data has been lagged 4 months after the quarter reviewed to allow time for claims to be submitted and the data captured by the paid claims system. It does not include claims that were paid later. "Not Seen" means a publically-funded (Medicaid or IPRS) claim for services was not paid during the period reviewed. It is possible that these individuals may have received a service paid by another payer. The rows may add up to > 100% due to rounding.

Alamance-Caswell, East Carolina Behavioral Health, Five County, Orange-Person-Chatham, and PBH submitted very low numbers of screening records to the CDW this quarter, which resulted in no or very low numbers of new individuals with I/DD identified.

Western Highlands Network implemented the Medicaid Waiver on Jan 3, 2012. Their Medicaid claims data was not available for this report.

SOURCE: Healthcare Enterprise Accounts Receivable Tracking System (HEARTS) Data for discharges between April 1 - June 30, 2012 as reported in the Consumer Data Warehouse (CDW) as of 8/22/12.

This indicator is intended to measure how well the community system is doing providing local community-based crisis and inpatient psychiatric care to reduce the use of state psychiatric hospitals to provide short-term acute inpatient psychiatric care. It is not intended to measure care provided by the state hospitals and does not include all discharges.

Discharge data from state hospitals has been modified to include only discharges coded as "direct" discharges to sources that fall within the responsibility of an LME to coordinate services (e.g. to other outpatient and residential non state facility, self/no referral, unknown, community agency, private physician, other health care, family friends, nonresidential treatment/habilitation program, other). Discharges for other reasons (e.g. transfers to other facilities, deaths, etc.); to other referral sources (e.g. court, correctional facilities, nursing homes, psychiatric service of general hospital, state facilities, VA); and out-of-state are not included in the numerator and denominator.

SOURCE: Healthcare Enterprise Accounts Receivable Tracking System (HEARTS) Data for discharges between October 1, 2011 - December 31, 2011 as reported in the Consumer Data Warehouse (CDW) as of 8/22/12.

These indicators are intended to measure how well the community system is doing following-up, engaging consumers, coordinating care, and providing services that reduce the need for readmission to state psychiatric hospitals. They are not intended to measure care provided by the state hospitals and do not include all discharges.

Discharge data from state hospitals has been modified to include only discharges coded as "direct" discharges to sources that fall within the responsibility of an LME to coordinate services (e.g. to other outpatient and residential non state facility, self/no referral, unknown, community agency, private physician, other health care, family friends, nonresidential treatment/habilitation program, other). Discharges for other reasons (e.g. transfers to other facilities, deaths, etc.); to other referral sources (e.g. court, correctional facilities, nursing homes, psychiatric service of general hospital, state facilities, VA); and out-of-state are not included in the numerator and denominator.

**SOURCE:** Medicaid and State service claims data for community hospital discharges between January 1, 2011 - March 31, 2011, based on Medicaid and IPRS claims paid as of 7/31/12.

**NOTES:**

The performance measure applies to Medicaid consumers. A comparison to all consumers (Medicaid + IPRS combined) is shown for information. Transfers are treated as a single continuous episode of care.

The performance measure does not check for and therefore does not include subsequent admissions to a state psychiatric hospital.

The data has been lagged 4 months to allow time for claims to be submitted and the data to be captured by the paid claims system and may not be complete for claims that were submitted and paid later.

- ECBH and OPC readmissions within 30 days of discharge may be incomplete for persons discharged in March as the data will not include Medicaid claims for readmissions that occurred after March when ECBH and OPC began operating under the Medicaid waiver.

WHN is operating under a Medicaid waiver and their Medicaid data was not available for this report.

- Data for Alamance-Caswell, Five County, and PBH is self-reported as these LMEs are operating under a Medicaid waiver.

These indicators are intended to measure how well the community system is doing following-up, engaging consumers, coordinating care, and providing services that reduce the need for readmission to a community hospital psychiatric inpatient unit. They are not intended to measure care provided by community hospitals.

SOURCE: Healthcare Enterprise Accounts Receivable Tracking System (HEARTS) data for discharges between January 1 - March 31, 2012 in Client Data Warehouse (CDW) as of 8/22/12 matched to Medicaid and State Service Claims Data for claims paid through July 31, 2012.

NOTES:

- Alamance-Caswell, Five County and PBH data is self-reported as these LMEs are operating under a Medicaid waiver and their Medicaid data is not otherwise available. The data has been lagged 4 months to allow time for claims to be submitted and the data to be captured by the paid claims system and may not be complete for claims that were submitted and paid later. "Not Seen" means a publically-funded (Medicaid or IPRS) claim for services was not paid during the period reviewed. It is possible that these individuals may have received a service paid by another payer.
- The rows may add up to > 100% due to rounding.
- OPC and ECBH follow-up care results may be incomplete for persons discharged at the end of March as the data will not include Medicaid claims for follow-up care provided after March when they began operating under the Medicaid waiver.

Discharge data has been modified to include only discharges coded as "direct" discharges and "program completion" to sources that fall within the responsibility of an LME to coordinate services (e.g. to other outpatient and residential non state facility, self/no referral, unknown, community agency, private physician, other health care, family friends, nonresidential treatment/habilitation program, other). Discharges for other reasons (e.g. transfers to other facilities, deaths, etc.); to other referral sources (e.g. court, correctional facilities, nursing homes, psychiatric service of general hospital, state facilities, VA); and out-of-state are not included in the numerator and denominator.

**SOURCE:**

- Medicaid and State claims data for discharges between January 1 - March 31, 2012 based on Medicaid and IPRS claims paid through July 31, 2012.
- Alamance-Caswell, Five County, PBH and Western Highlands Network are operating under a Medicaid waiver and their Medicaid data is not included in the paid claims database. LMEs operating under the waiver are working with DMA to include encounter data in the paid claims database.
  - ECBH and OPC LME follow-up care results for persons served during the last week of the quarter may be incomplete as it does not include Medicaid claims for follow-up services provided after March 2012 when these LMEs began operating under the Medicaid Waiver.

**NOTES:**

The claims data has been lagged 4 months after the quarter reviewed to allow time for claims to be submitted and the data captured by the paid claims system. It does not include claims that were paid later.

"Not Seen" means a publically-funded (Medicaid or IPRS) claim for services was not paid as of the "claims paid through" date above. It is possible that these individuals may have received a service paid by another payer.

The data excludes inpatient readmissions within 7 days of discharge and emergency department, mobile crisis, and admissions to a state facility as a follow-up service.

The rows may add up to > 100% due to rounding.

**SOURCE:**

Medicaid and State claims data for facility based crisis services and non-hospital medical detoxification services provided between January 1, 2012 - March 31, 2012 based on Medicaid and IPRS claims paid through July 31, 2012 and State facility admissions between January 1, 2012 - April 30, 2012 from Healthcare Enterprise Accounts Receivable Tracking System (HEARTS) extracts to the Consumer Data Warehouse (CDW) as of August 22, 2012.

Alamance-Caswell, Five County, PBH and Western Highlands Network are operating under a Medicaid waiver and their Medicaid data is not included in the paid claims database. These LMEs are working with DMA to include encounter data in the paid claims database.

- ECBH and OPC LME follow-up results for persons served during the last week of the quarter may be incomplete as it does not include Medicaid claims for follow-up services provided after March 2012 when these LMEs began operating under the Medicaid Waiver.

**NOTES:**

The claims data has been lagged 4 months after the quarter reviewed to allow time for claims to be submitted and the data captured by the paid claims system. It does not include claims that were paid later.

"Not Seen" means a publically-funded (Medicaid or IPRS) claim for services was not paid during the period reviewed. It is possible that these individuals may have received a service paid by another payer.

Persons receiving ACTT during the same month are credited with having been seen within 2 days of receiving a crisis service.

The rows may add up to > 100% due to rounding.

**SOURCE:**

Medicaid claims data for MH/DD/SA services provided between **April 1, 2011 - March 31, 2012** (based on Medicaid claims paid through **July 31, 2012**). Medicaid IDs for individuals who were continuously enrolled in Medicaid and received a MH/DD/SA service during the measurement period were provided by DMH/DD/SAS and PBH to Community Care of North Carolina (CCNC) who matched the data to CCNC enrollment and Medicaid claims data for primary care and preventive health services provided between **April 1, 2009 - March 31, 2012**. Summary data was then provided to DMH/DD/SAS by CCNC 9/12/12. Data for WHN is incomplete and does not include Medicaid claims for new individuals receiving MH/DD/SA services between January 1 - March 31, 2012 after implementation of the Medicaid Waiver.

**NOTES:**

**Claims data has been lagged 4 months** after the measurement year to allow time for claims to be submitted and the data captured by the paid claims system. It does not include claims that were paid later.

**Continuous enrollment:** Medicaid recipients must be continuously enrolled in Medicaid for at least 11 months during the measurement year in order to be included in the measure. These months need not be consecutive.

**Measurement year:** The measurement year is a moving one-year period ending the last day of the previous quarter. This allows 4 months of paid claims data following the end of the year. The measurement year and "claims paid through" dates are listed above under "Source".

**Look-back period for the primary care/preventive health visit:** Two years for ages 7-19, one year for all others ending the last day of the measurement year.

**All percentages** are based on the number of Medicaid recipients in the first column that received an MH/DD/SA service.

**Data Sources:**

**Population:** Data Source: NC Office of State Budget and Management (OSBM) website. [http://www.osbm.state.nc.us/demog/countytotals\\_singleage\\_2011.html](http://www.osbm.state.nc.us/demog/countytotals_singleage_2011.html)  
 Last updated: 2/23/12, Downloaded: 4/24/12.

**Medicaid Eligibles:** Medicaid eligibles on July 1, 2011, extracted from DRIVE from Client Population on November 14, 2011. May not yet include all retroactive eligibles.

**County Area:** US Census Bureau 2006 Quick Facts (<http://quickfacts.census.gov/qfd/states/37/>).

**Urban/Rural:** NC Rural Economic Development Center defines urban and rural based on population density as of the 1990 Census of Population. Rural counties contain <200 persons per square mile. Urban counties contain ≥200 persons per square mile (<http://www.ncruralcenter.org/databank/>). Counties in this table are defined based on the same population density criteria using July 2010 population projections.

Appendix C: Formulas for Calculating the Performance Indicators Used in the Community Systems Progress Indicators Reports SFY 2011-2012			
Indicator	Numerator	Denominator	Notes
<b>SA Prevention and Early Intervention</b>	Number of individuals that completed an approved evidence-based "selective" or "indicated" SA prevention program during the defined period entered in the NC Prevention Outcomes Performance System (NC-POPS).	Number of youth (ages 6-17) in the population that are estimated to be "at risk" for developing a SA disorder (based on national and state level survey data).	Defined period includes persons that completed a program during a moving one-year period lagged by 45 days to allow time for the data to be entered in NC-POPS.
<b>Timely Access to Care</b>	Number of new persons requesting care through the LME's STR/Access Unit or through an LME's provider who are determined to need the relevant level of care (urgent, or routine) and who receive it within the timeframes specified in the LME Performance Contract.	Number of new persons requesting care through the LME's STR/Access Unit or through an LME's provider who are determined to need the relevant level of care (urgent or routine), during the defined period.	Defined period includes persons screened during a quarter. This indicator will rely on LMEs' quarterly reports, until the NC DHHS is ensured that the screening data submitted to the Client Data Warehouse (CDW) is complete and accurate.
<b>Services to Persons in Need (Treated Prevalence)</b>	Number of unduplicated persons with at least one paid IPRS and/or Medicaid service claim* that indicates a diagnosis for the age-disability group during the defined period. Disability group is based on the first three diagnoses on all claims. Persons in each disability group were counted once -- based on the LME and age at first service in the year. Persons with multiple disabilities (e.g. MH and SA, MH and DD, etc.) were counted in all applicable columns.	Number of persons in the LME catchment area's relevant age group estimated to need service for the disability (based on national studies). Age appropriate estimates were applied to county population, where applicable.	An individual person can be counted in more than one age-disability group. Defined period includes four quarters of service dates, lagged by one quarter prior to the report to allow time for claims to be submitted and paid.
<b>Timely Initiation of Services</b>	Number of persons with a first paid IPRS and/or Medicaid service claim* that indicates a diagnosis for the disability group during the defined period who receive a second paid IPRS and/or Medicaid service claim that indicates a diagnosis for the disability group within 14 days of the first service date.	Number of persons with a first paid IPRS and/or Medicaid service claim* that indicates a diagnosis for the disability group during the defined period.	The first date of service is defined as a service after 60 days with no service. Defined period includes first service dates during the quarter being reviewed, lagged by four months following the quarter to allow time for claims to be submitted and paid.
<b>Engagement in Services</b>	Number of persons meeting the criteria for Initiation who receive a fourth paid IPRS and/or Medicaid service claim* that indicates a diagnosis for the disability group within 30 days of the second service date	Number of persons with a first paid IPRS and/or Medicaid service claim* that indicates a diagnosis for the disability group during the defined period	Defined period includes first service dates during the quarter being reviewed, lagged by four months following the quarter to allow time for claims to be submitted and paid.
<b>Timely Support For Persons With Intellectual or Developmental Disabilities</b>	Number of persons that were screened, triaged, and referred (STR) through an LME's STR unit during the defined period that were identified as being a "new" consumer (episode of care) having I/DD and "routine" care needs who received a mh/dd/sa service within 30 days of being screened.	Number of persons that were screened, triaged, and referred (STR) through an LME's STR unit during the defined period that were identified as being a "new" consumer (episode of care) having I/DD and "routine" care needs during the defined period.	Defined period includes individuals that were screened, triaged, and referred during the prior quarter, lagged 4 months following the end of the quarter to allow time for claims to be submitted and paid. A "new" consumer (episode of care) is defined as an individual that did not receive a Medicaid or IPRS paid service within 60 days prior to the screening.
<b>Short-Term Care In State Psychiatric Hospitals</b>	Number of persons discharged from a state psychiatric hospital during the defined period who were admitted no more than 7 or between 8-30 days prior to discharge	Number of persons discharged from a state psychiatric hospital during the defined period, according to HEARTS data in the Client Data Warehouse (CDW).	Defined period includes discharges during the most recent quarter prior to the report. NOTE: See the note associated with the Timely Follow-up After Inpatient Care - State Psychiatric Hospitals measure.
<b>State Psychiatric Hospitals Readmissions</b>	Number of persons discharged from a state psychiatric hospital during the defined period who had a subsequent readmission to a state psychiatric hospital within 30 or 180 calendar days of the discharge	Number of persons discharged from a state psychiatric hospital during the defined period, according to HEARTS data in the Client Data Warehouse (CDW).	Defined period includes discharges during a quarter, lagged 7 months to allow for readmissions up to 180 days after discharge, plus one month for the data to be entered into CDW. NOTE: See the note associated with the Timely Follow-up After Inpatient Care - State Psychiatric Hospitals measure.
<b>Community Hospitals Readmissions</b>	Number of persons discharged from a community hospital psychiatric unit during the defined period who had a subsequent readmission to a community hospital psychiatric unit within 30 calendar days of the discharge based on Medicaid and IPRS paid claims.	Number of persons discharged from a community hospital psychiatric unit during the defined period based on Medicaid and IPRS paid claims.	Defined period includes discharges during a quarter, lagged 4 months following the end of the quarter to allow claims to be submitted and paid. Transfers are treated as one continuous hospitalization.
<b>Timely Follow-Up After Inpatient Care State Alcohol &amp; Drug Abuse Treatment Centers (ADATCs)</b>	Number of persons discharged from a state ADATC during the defined period who had a paid IPRS and/or Medicaid service* within 1-7 calendar days of the discharge	Number of persons discharged from a state ADATC during the defined period, according to HEARTS data in the Client Data Warehouse (CDW).	Defined period includes discharges during a quarter, lagged 4 months prior to the report to allow time for claims to be submitted and paid. NOTE: Persons discharged include "Direct Discharges" (to Inpatient Commitment, to Outpatient Commitment, to Substance Abuse Commitment, by Court Order, with Approval) and "Program Completion" for the following types of "Discharge Referrals" (other outpatient and residential non state facility, nonresidential treatment/habilitation program, self/no referral, community agency, private physician, other health care, family friends, unknown, and other), for all "Discharge Living Arrangements" except "correctional facility", and "institution (psych hospital mental retardation)". Persons discharged are assigned to an LME based on "D/C Aftercare LME" designation, or if blank, based on "Responsible County" (excludes "Responsible County" or "County D/C To" = "Out of State"). Persons receiving ACTT during the month following discharge were counted as having been seen within "0 - 7 days". Excludes cases if readmitted within 7 days. Excludes ED visits and mobile crisis as a follow-up service.

Indicator	Numerator	Denominator	Notes
<b>Timely Follow-Up After Inpatient Care State Psychiatric Hospitals</b>	Number of persons discharged from a state psychiatric hospital during the defined period who had a paid IPRS and/or Medicaid service* within 1-7 calendar days of the discharge	Number of persons discharged from a state psychiatric hospital during the defined period, according to HEARTS data in the Client Data Warehouse (CDW).	Defined period includes discharges during a quarter, lagged 4 months prior to the report to allow time for claims to be submitted and paid. NOTE: Persons discharged include "Direct Discharges" (to Inpatient Commitment, to Outpatient Commitment, to Substance Abuse Commitment, by Court Order, with Approval) for the following types of "Discharge Referrals" (other outpatient and residential non state facility, nonresidential treatment/habilitation program, self/no referral, community agency, private physician, other health care, psychiatric service general hospital, family friends, unknown, and other), for all "Discharge Living Arrangements" except "correctional facility", and "institution (psych hospital mental retardation)". Persons discharged are assigned to an LME based on "D/C Aftercare LME" designation, or if blank, based on "Responsible County" (excludes "Responsible County" or "County D/C To" = "Out of State"). Persons receiving ACTT during the month following discharge were counted as having been seen within "0 - 7 days". Excludes cases if readmitted within 7 days. Excludes ED visits and mobile crisis as a follow-up service.
<b>Timely Follow-Up After Inpatient Care Community Hospitals</b>	Number of persons discharged from a state psychiatric hospital during the defined period who had a paid IPRS and/or Medicaid service* within 1-7 calendar days of the discharge	Number of persons discharged from a state psychiatric hospital during the defined period, according to HEARTS data in the Client Data Warehouse (CDW).	Defined period includes discharges during a quarter, lagged 4 months after the end of the quarter to allow time for claims to be submitted and paid. Persons receiving ACTT during the month following discharge were counted as having been seen within "0 - 7 days". Excludes cases if readmitted within 7 days. Excludes ED visits and mobile crisis as a follow-up service.
<b>Timely Follow-Up After Crisis Care</b>	Number of persons discharged from crisis care in a facility based crisis unit or non-hospital medical detoxification unit during the defined period who had a paid IPRS and/or Medicaid service* within 0-5 calendar days of the discharge	Number of persons discharged from a crisis service in a facility based crisis unit or non-hospital medical detoxification unit during the defined period based on Medicaid and/or IPRS paid claims.	Defined period includes discharges during a quarter, lagged 4 months after the end of the quarter to allow time for claims to be submitted and paid. Persons receiving ACTT during the month following discharge were counted as having been seen within "0 - 7 days". Excludes cases if readmitted within 7 days. Excludes ED visits and mobile crisis as a follow-up service.
<b>Medical Care Coordination</b>	Number of continuously enrolled Medicaid recipients that received a mh/dd/sa service during the defined period who received a primary care/preventive health visit during the past year (2 years for persons ages 7-19).	Number of continuously enrolled Medicaid recipients who received a mh/dd/sa service during the defined period.	Defined period is a moving one-year period ending the prior quarter, lagged 4 months after the end of the year to allow time for claims to be submitted and paid. The look-back period for identifying a primary care/preventive health visit is the same one-year period corresponding to the defined period (two-years for persons ages 7-19). Continuously enrolled Medicaid recipients must be enrolled in Medicaid for at least 11 months of the one-year defined period. These months need not be continuous.

\*Service claims data include:

(1) All paid IPRS claims and claims denied due to lack of funds. (Other denied IPRS claims and procedure codes YP500 and YP692 are excluded.)

Any claim marked paid where the paid amount for the detail is "0", provided the EOB for the detail is either "payment reduced to maximum allowed" or "paid in full". This should capture any claim where the rate is set to "0" or where the reported 1st or 3rd party payments equal the billed amount or at least cover what would have paid.

(2) All Medicaid claims billed by the following providers:

All enhanced services	Professional practitioners (licensed psychologists, LCSWs, etc.)	Criterion 5 extended-stay residential placements	Select general hospital outpatient	Physician multi-specialty groups for whom at least 50% of dollars over the last 12 months were for claims with a primary mh/dd/sa diagnosis.
CAP-MR/DD	Psychiatrists	Community Intermediate Care Facilities for Mental Retardation	Community psychiatric hospitals (excluding state-operated)	
Directly-enrolled residential	Psychiatric residential treatment facilities (excluding state-operated)	General hospital inpatient psychiatric units	"Incident to" claims by provisionally licensed professionals
