Tribal grant recipients: direct-grant tribes, tribal organizations, or territories with allotments of \$20,000 or less may use for planning and administration up to 20% of the funds payable. Grant recipients that are direct grant tribes, tribal organizations, or territories with allotments over \$20,000 may use for

planning and administration purposes up to 20% of the first \$20,000 (or \$4,000) plus 10% of the funds payable that exceeds \$20,000. Any administrative costs in excess of these limits must be paid from non-federal sources.

Alternate Use of Crisis Assistance Funds, 2605(c)(1)(C)

1.3 The funds reserved for winter crisis assistance that have not been expended by March 15 will be reprogrammed to:

☐	Heating assistance	☐	Cooling assistance
☐	Weatherization assistance	☒	Other (specify:) Our crisis component is a year round program that serves heating and cooling crisis needs. Funds not used for heating by March 31 or the last business day of the month of March will be used for the crisis program. All funds not used by the end of the state fiscal year are carried over to the next fiscal year in accordance with LIHEAP guidelines. Subliminal payments maybe issued to disperse any remaining LIHEAP funds to prevent returning funds back to ACF.

Categorical Eligibility, 2605(b)(2)(A) - Assurance 2, 2605(c)(1)(A), 2605(b)(8A) - Assurance 8

1.4 Do you consider households categorically eligible if at least one household member receives at least one of the following categories of benefits in the left column below? ☐ Yes ☐ No

If you answered "Yes" to question 1.4, you must complete the table below and answer questions 1.5 and 1.6.

1.4a. Provide your definition of categorical eligibility. Please explain how households are categorically eligible (i.e, do all household members need to receive the benefits or just one member, is there a data exchange in place?) and how categorical eligibility streamlines the LIHEAP application process.

1.5 Do you automatically enroll households without a direct annual application? ☒ Yes ☐ No

If Yes, explain:

Households with no underlying medical issue with a past due notice or disconnection notice and services still on at time of application require a 48 hr processing timeframe. State policy 400.03.			
Benefit Levels, 2605(b)(5) - Assurance 5, 2605(c)(1)(B)			
3.6 Describe estimated benefit levels for the fiscal year for which this plan applies. Please note: the maximum and minimum benefits must be shown in the payment matrix.			
Minimum Benefit	\$1	Maximum Benefit	\$600

3.7 Do you provide in-kind (e.g., fans, air conditioners) and/or other forms of benefits? ☒ Yes ☐ No

If yes, describe.

The cooling assistance program which is under crisis does provide in-kind benefits. The crisis program maximum benefit amount is \$600 allotted per fiscal year to applicants depending on the need of the crisis at the time of application. If the household does not need the full \$600 to alleviate the crisis, they can reapply within the fiscal year if another crisis occurs and funds are available until they reach the maximum limit for the year.

This in-kind assistance would include window air conditioning units and fans needed to cool the household as long as price is within the benefit limit. Policy section 400.04D

Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	HHS Poverty Guidelines	150.00%

4.2 Provide your LIHEAP program's definition for determining a crisis. If you administer multiple crisis assistance programs (winter, summer, and/or year-round), Include all program definitions.

A household is considered to be in a crisis if the heating or cooling source is disconnected or the household is currently experiencing or is in danger of experiencing a life threatening or health related emergency due to lack of heating/cooling, and sufficient, timely, and appropriate assistance is not available from any other source.

4.3 What constitutes a life-threatening crisis?

Life threatening is defined as a household which has no heating or cooling source or has a disconnection, final or past due notice for their heating/cooling service and the health and well-being of a household member would be in danger if energy crisis was not alleviated. State policy section 400.01.

Explanations of policies for each "yes" checked above:			
For the crisis program a household must meet the vulnerability policy as an eligibility requirement: Policy 400.06 To be eligible, a household must be vulnerable at the time of application. A household is vulnerable if it has a heating source billed separately and it is subject to the rising cost of heating for the heat expense. Accept the applicant's statement about the vulnerability status for the household. 1. If a household lives in a private living arrangement with a heating source and heat costs are billed separately, it is fully vulnerable. 2. If a household lives in public housing where heat costs are billed separately from the rent, it is fully vulnerable. 3. An applicant who lives in a private living arrangement who does not receive a separate bill from the energy provider, they are not vulnerable. 4. A household living in public housing where utilities for heat are billed separately from the rent or where utilities for heat are included in the rent, and the household has paid an excess in utilities for heat in the last 12 months at the current address, is fully vulnerable. County needs to have the public housing/housing authority sign a vendor contract for the payment check to be written to them directly or the public housing/housing authority needs to provide the account number for the household applying for benefits. For additional verification of a heating arrangement in public housing, contact the local public housing authority. 5. A person living in an institution is not vulnerable. NOTE: Receipt of a utility allowance does not affect vulnerability status. Section 8 households are considered in a private living arrangement.

There are 20 subgrantees that administer Weatherization services. These weatherization subgrantees service multiple counties to ensure all 100 counties are covered. Weatherization subgrantees continue services year to year based on the performance on the previous year's contract. The public is provided the opportunity to provide feedback on the subgrantes performance and level of service during the public comment period held prior to the annual public hearing. 9.1 Do you make payments directly to home energy suppliers?

Heating ☒ Yes ☐ No

Cooling ☒ Yes ☐ No

Crisis ☒ Yes ☐ No

Are there exceptions? ☐ Yes ☒ No

If yes, Describe.

North Carolina's computer system records all energy applications, including the vendor, account details and the applicant's approved amount. Payments are then issued directly to the vendor via direct deposit. For vendors who do not use direct deposit, the county mails them a check instead.

9.2 How do you notify the client of the amount of assistance paid?

The client/household receives an approval notice in the mail informing them the benefit amount they are eligible for and which vendor and account number the benefit payment will be applied to.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

For the crisis program the benefit amount is based on the need to prevent the disconnection or the cost to restore services and once approved the agency contacts the utility provider to make a pledge on the account to ensure this amount is accounted for on this bill until the provider receives the payment via direct deposit or check. For the heating program, the benefit amount is a credit payment applied to the account.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The energy provider agreement that providers must read and sign to receive LIHEAP payments and participate as a provider in our program, has specific legal language included in the terms and conditions that ensures providers are treating all households fair.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

☐ Yes ☒ No

If so, describe the measures unregulated vendors may take.

Attach a copy of the template statewide vendor agreement or a policy that indicates local agreements must adhere to statewide policies and assurances.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

North Carolina Division of Social Services operates under a county administered and state supervised system. Both State and County administrative costs of direct case work are charged directly to the appropriate program and supervisory and overhead cost are allocated in accordance with the cost allocation plan approved by the North Carolina Department of Health and Human Services. NC DHHS fiscal/budget Division tracks in house and subgrantees and administrative cost. Indirect cost are handled through cognizant agencies prior to the final direct cost rate being developed. Expenditures on all components of the LIHEAP plan are recorded in the NC Division of Social Services accounting records by fund, cost center, and line item. Documentation of State office expenditures are maintained by the accounting office. Applications for heating, cooling, and crisis programs are taken by Department of Social Services personnel and additional State and local government entities or community based organizations. The applications are processed by the county and are retained by the county. Local state monitoring is conducted to track the LIHEAP funds used and the number of households that received assistance.

10.1a Provide your definitions of the following:

Obligation

An obligation is a commitment of funds for a specific use. The State obligates funds by entering into a signed agreement with local agencies. Expenditures are the payments of those funds. The two year grant period authorizes the State to obligate and expend carryover funds in the second year. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

North Carolina Energy Programs Application is currently on target to capture the data needed for the required performance measures data. Continuous work been done to ensure improvements are made in this area. Vendor agreements are reviewed to ensure areas have been updated to strengthen partnerships between the local DSS agencies and the vendors. Top vendors in each category have been identified for reporting purposes. North Carolina will collect main heating fuel information and cooling information from all households assisted by gathering information from the application process and North Carolina will pull the information for reporting from the NC FAST system. The NC FAST system requires that all information is entered to obtain expenditure data for all LIHEAP bill payments to households. We identify the top providers and send them a list of all clients for the vendors to return the last 12 months of bill data.
