This table shows the number of children that received 1, 2, 3, 4 and 5 or more NC ECIDS programs or services during the 2013-2014 State Fiscal Year. The last row labeled **Total Unduplicated Number of Children Receiving NC ECIDS Services** represents the total number of children enrolled at least once in an NC ECIDS program during the 2013-2014 State Fiscal Year. While some children may have been enrolled in a program multiple times within the year (e.g. because of eligibility status or moving), each child is only counted once regardless of how many times they enter or exit during the 2013-2014 State Fiscal Year.

¹**Ages 0-5 Years** includes children from birth to six years old minus one day.

¹**Under 1 year** includes children from birth to one year old minus one day.

¹**1 year old** includes children from one year old to two years old minus one day.

¹**2 years old** includes children from two years old to three years old minus one day.

¹**3 years old** includes children from three years old to four years old minus one day.

¹**4 years old** includes children from four years old to five years old minus one day.

¹**5 years old** includes children from five years old to six years old minus one day.

²**VTSTS** = Values Too Small To Show

Notes

- Each agency and program participating in NC ECIDS maintains its own data, and each one has protocols for data entry and data quality. NC ECIDS does not conduct any additional data quality measures. All programs ensure the highest quality data to the extent possible.
- When there is a count of children fewer than 10 in any cell, that number will not be shown. Those cells will display as VTSTS (Values Too Small To Show). When there are no children that meet the specific criteria within a cell (N=0), the cell will display as 0.0%.
- All numbers may not add up to 100% due to rounding. It is also possible that some rows and/or columns may not be based on a total of 100%, so the user should read each table carefully.
