Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

North Carolina Division of Social Services operates under a county administered and state supervised system. Both State and County administrative costs of direct case work are charged directly to the appropriate program and supervisory and overhead cost are allocated in accordance with the cost allocation plan approved by the North Carolina Department of Health and Human Services. NC DHHS fiscal/budget Division tracks in house and subgrantees and administrative cost. Indirect cost are handled through cognizant agencies prior to the final direct cost rate being developed. Expenditures on all components of the LIHEAP plan are recorded in the North Carolina Division of Social Services accounting records by fund, cost center, and line item. Documentation of State office expenditures are maintained by the accounting office. Applications for heating, cooling, and crisis programs are taken by Department of Social Services personnel and additional State and local government entitles or community based organizations. The applications are processed by the county and are retained by the county. Local State monitoring is conducted to track the LIHEAP funds used and the number of households that received assistance.

The two-year grant period authorizes the State to obligate and expend carryover funds in the second year. If any of the carryover funds are not obligated or expended by the end of the 2nd year in the grant period, they are returned to the federal government. All funds are reported in the SF-425, Federal Financial Report, at the end of the award's obligation and expenditure period, including any vendor refunds that are re-obligated.

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP (Benefit Targeting Index, Burden Reduction Targeting Index, Restoration of Home Energy Service, and Prevention of Loss of Home Energy Service). Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

North Carolina Energy Programs Application is currently on target to capture the data needed for the required performance measures data. Continuous work been done to ensure improvements are made in this area. Vendor agreements are reviewed to ensure areas have been updated to strengthen partnerships between the local DSS agencies and the vendors. Top vendors in each category have been identified for reporting purposes. North Carolina will collect main heating fuel information and cooling information from all households assisted by gathering information from the application process and North Carolina will pull the information for reporting from the NC FAST system. The NC FAST system requires that all information is entered to obtain expenditure data for all LIHEAP bill payments to households. We identify the top providers and send them a list of all clients for the vendors to return the last 12 months of bill data.
