# Inclusion Connects Report Summary

---

Summary views of key metrics from the [Inclusion Connects Quarterly Report](#) are available in the following sections.

Jan. 15, 2026

# Transition & Housing Overview

Please note metrics may fluctuate as data quality improves, reflecting more accurate populations and cleaner, more reliable data. Current data is sourced from LME/MCO reporting.

- The total number of members reported living in institutional settings remains stable across LME/MCOs.
- In-Reach efforts reflect internal policies of each LME/MCO.
- Percentages are calculated using the number of people eligible for In-Reach each reporting period. This includes all those living in institutional settings.
- NCDHHS continues to work with the LME/MCOs to ensure people eligible for diversion are tracked correctly.
- Transition data from the Money Follows the Person program are included.

## Transition & Housing

## In-Reach

- In-Reach involves educating people with disabilities in institutional settings on the benefits and availability of community-based services.
- In-Reach staff also offers visits to community-based settings and opportunities to meet other people with disabilities who are living, working and receiving services in inclusive settings.
- In-Reach involves face-to-face and virtual discussions with each person, depending on their preference. The goal is to support people in making the best living decision for themselves.

## Transition & Housing

Transition Planning Following In-Reach

## Transition Planning

- In-Reach education allows people with disabilities to make an informed choice about where they want to live and receive services.
- The goal of transition planning is to make sure the person has the supports they need to move into the community living option of their choice, if it is a good fit.

## Transition & Housing

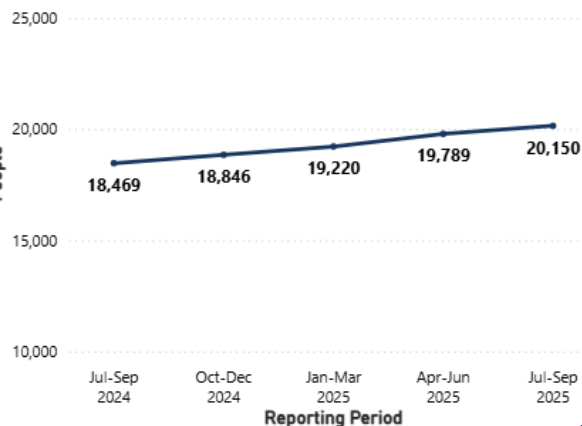

## Diversion

- Diversion involves identifying people with I/DD who may be at risk of moving into an institution and **providing them with extra supports and services** to help them stay in their own homes and neighborhoods.
- Diversion means making sure every person can get important services like Medicaid Home and Community-Based Services (HCBS), special waivers, or state programs. These supports help them stay independent and avoid moving into an institution.

# Services Overview

## Total Innovations Waiver Waitlist Count

## Innovations Waiver Waitlist - I/DD Services

## 1915(i) Services

- The Innovations Waiver Waitlist continues to grow, reflecting **increasing awareness and need for services within the I/DD community**.
- The number of people receiving I/DD services continues to grow relative to growth of the Innovations Waiver - showing that while the **demand for services increases, access is also expanding**.
- People with approved 1915(i) assessments are new each reporting period, but those receiving 1915(i) services may overlap across periods.

## Services

## Innovations Waiver

- The Innovations Waiver gives people with I/DD the most services and support at home, in the community, and at work. It helps them live and do well in community settings. The waiver offers person-centered plans made to fit each person's needs.
- Unfortunately, there are not enough waiver slots to allow for everyone, which leads to a growing waitlist.
- Values for Oct – Dec 2024 and Jan – Mar 2025 have been updated to reflect more complete data identified during routine data checks.

# Innovations Waiver

Active Slots	14,185
Remaining Reserve Slots	123
Inactive Assigned Slots	428
<u>Total Waiver Slots</u>	<u>14,736</u>

## Inactive Assigned Slots - Some Reasons Slots May be Assigned to Member but Inactive:

**At Beginning of Slot Assignment Process**

(Can last up to 90 days)

**Disability Determination In Progress**

**Deceased**

(Slot Not Yet Reassigned)

**In Institutional Setting**

(Assigned Slot Temporarily Held at Member's Request)

**Inpatient and Transitioning**

## Services

## I/DD Services

- Like the Innovations Waiver, I/DD services in North Carolina provide for people with I/DD to help them live independently and fully in their communities. This can help improve quality of life and reduce reliance on institutional care.
- Approximately **one third of people** on the waitlist are currently receiving I/DD services outside of the Innovations Waiver while they wait for a slot.

## Services

### 1915(i) Services Include:\*

1. Community Living and Supports
2. Supported Employment
3. Respite
4. Community Transition

\*1915(i) Services do **NOT** include Tailored Care Management (TCM).

## 1915(i) Services

- 1915(i) is a Medicaid program in North Carolina that helps people with I/DD, mental health needs, substance use disorders, or traumatic brain injuries get care at home or in their communities.
- To get started, a person contacts their LME/MCO to request an assessment, which is completed within 90 days. After this, a personalized support plan is created for each person.
- The program gives people important services that can help with all their needs. It also supports people while they are on the Innovations Waiver waitlist. 1915(i) services may even fully meet a person's needs, making the Innovations Waiver unnecessary.

# Direct Support Professional (DSP) Workforce Overview

- **Utilization rates** represent authorized Community Living and Support (CLS) services provided to people on the **Innovations Waiver**.
- The Department is looking into utilization rate data quality and taking necessary steps to ensure all LME/MCOs report this information in the same way.
- While improvements in data quality have been seen, the Department continues to engage with the LME/MCOs to understand discrepancies in reporting and ensure accurate data.
