- **Keep Kids in the Classroom**
  - Widespread Vaccine Access
  - Transparent Communications
  - Clear Messaging and Guidance
  - Treatment Availability
  - Convenient Testing
  - Access to PPE
  - Contact Tracing in High-Risk Settings
North Carolina’s success has been driven by grounding ourselves in:

1. **Strong Collaborative Partnerships.** North Carolina’s progress is the result of the collective efforts of government agencies, elected officials, business leaders from every industry, school officials, entertainment and sports leaders, health care providers, community leaders and individuals.

2. **Robust Data Infrastructure and Accountability.** Data drives an effective response, is essential to making progress on health equity, and relies upon modernizing information systems and data transparency.

3. **Transparent Communications Focused on Earning Public Trust.** Communications in a time of crisis require transparency, managing of expectations, clear and understandable messages, actionable guidance, and partnership with trusted messengers.

4. **Adapting to Evolving Science and Research.** North Carolina has evolved its response based on the emerging science and lessons learned, focusing on strategies that are most effective at each stage of the pandemic.
Recover Stronger

- The pandemic exacerbated existing challenges.

We need to offer services further upstream to build resiliency, invest in coordinated systems of care that make mental health services easy to access when and where they are needed and reduce the stigma around accessing these services.

We will work to ensure that North Carolina’s children grow up safe, healthy and thriving in nurturing and resilient families and communities. Investing in families and children’s healthy development builds more resilient families, better educational outcomes and, in the long term, a stronger society.

We will work to strengthen the workforce that supports early learning, health and wellness by delivering services to North Carolina. And we will take action to be an equitable workplace that lives its values and ensure that all people have the opportunity to be fully included members of their communities.

The health insurance coverage gap coupled with insufficient access to affordable care disproportionately impacts Historically Marginalized Populations who have also experienced worse outcomes than others under COVID-19. Medicaid expansion would help close the health insurance coverage gap.
