

Transition Guidance for Administering Social Services

After COVID-19 Waivers End

Summary

COVID-19 forced North Carolina to think more creatively about how to administer benefits to our citizens and to ease program operations. To ensure the health and safety of staff in the local county Departments of Social Services and the citizens of North Carolina, numerous waivers and flexibilities were enabled by their relevant federal partners. Based on the waiver, extensions have been made either on a monthly or quarterly basis and are set to run until either the state or federal public health emergency (PHE) ends or the waiver is no longer approved by the federal agency. For the majority of the waivers, the flexibility will end at the end of the month following the month in which the PHE ends. The U.S. Department of Health and Human Services has indicated it will [notify states 60 days prior to termination of the federal PHE](#).

Due to the length of time that these waivers have been in place, many of our customers have become reliant on the flexibilities that the waivers have offered and will need assistance in preparing for their end. In addition to the impact that the end of the waivers will have on our customers, local County Departments of Social Services will also be impacted as the work that was curtailed due to the waivers resumes.

This Guidebook has been developed by DHHS to help plan for the transition back to regular processing after COVID-19 waivers end and is intended to assist counties in developing their individual plans. This document serves as a guide only. Counties are strongly encouraged to develop procedures that will best serve the residents of their county in the most effective manner. This material also contains specific social services program policy guidance.

Description of the Waivers

Brief description of each FNS COVID-19 waiver.

FNS RECIPIENT COVID-19 RESPONSE WAIVER

- [Emergency Allotment Waiver](#): To ensure that eligible households had access to healthy food during the pandemic, USDA offered states the flexibility to bring all households up to the maximum benefit level for their household size. Starting in March 2020, the Families First Coronavirus Response Act authorized emergency allotments to FNS households. In April of 2021, USDA increased that to ensure that all households received a minimum increase in their benefits of at least \$95.
- [15% increase in FNS Allotments](#): The Consolidated Appropriations Act, 2021, signed on December 27, 2020, increased FNS benefits by raising maximum allotments to 15% of the June 2020 value of the Thrifty Food Plan (TFP). The American Rescue Plan Act extended the 15% increase until September 30, 2021.
- [FNS Online Purchasing](#): FNS rapidly expanded FNS online purchasing to support social distancing covering 90% of FNS households. The FNS online purchasing pilot started prior to the pandemic but expanded quickly to allow FNS recipients and retailers to better abide by local public health orders and allow online grocery ordering for [approved retailers](#). Only eligible foods may be purchased with FNS benefits; delivery fees and other associated charges may not be paid for with FNS benefits. **Online purchasing will be ongoing. For a list of the retailers in NC that accept EBT card payments online, refer to this link: <https://www.fns.usda.gov/snap/snap-online-retailers/North%20Carolina>**
- [Able-bodied Adults without Dependents \(ABAWDs\) Time Limit Suspension](#): FNS issued guidance to states suspending the time limit for ABAWD work requirements during the national emergency. The Families First Coronavirus Response Act suspended the time limit for ABAWDs, except in certain circumstances. If a State offers an ABAWD a slot in a work or workfare program, including a FNS Employment and Training (E&T) program, the individual is still subject to the time-limit. In addition, the State still needs to determine whether the ABAWD who was offered a slot in the work or workfare program had good cause for failure to comply. The suspension of the ABAWD time limit continues for one month following the month in which the federal public health emergency is lifted.
- [Suspended H and I Controlled Substance Felons Assessments during COVID-19 Pandemic](#): USDA allows states to temporarily suspend assessments until the end of the month following the month in which the PHE ends.
- [College Student Eligibility](#): Expands eligibility for certain college students if the individual is eligible to participate in a State or Federally financed work study program during the regular school year, as determined by the institution of higher education or the individual has an expected family contribution (EFC) of \$0 in the current academic year.

FNS ADMINISTRATIVE COVID-19 RESPONSE WAIVERS

- [Application Processing](#): USDA provided flexibilities to support application processing by state agencies given pandemic conditions. USDA began issuing adjustments of application processing procedures in March 2020, using authority granted through the Families First Coronavirus Response Act (FFCRA).
- [Waiver of FNS Interview Requirements](#): USDA allowed states to adjust interview requirements for FNS applicants. FNS regulations (7 CFR 273.2) require an interview prior to benefit issuance. USDA allowed state agencies to adjust:
 - By not requiring a household to complete an interview prior to approval, provided the applicant's identity has been verified and all other mandatory verifications completed. 7 C.F.R. 273.2(a)(2), 273.2(e), and 273.14(b)(3)
 - By not offering a face-to-face interview or granting a request for a face-to-face interview to any household at application or recertification. 7 C.F.R. 273.2(e)(2)(i)
 - By not requiring households that are eligible for expedited service to complete an interview prior to approval, provided that an applicant's identity has been identified and an attempt has been made to contact the household for an interview. March 26, 2020 / Extended in the Continuing Appropriations Act 2021 through June 30, 2021 / Potential extension: Extension of SNAP COVID-19 Administrative Flexibilities May 2021 and Beyond.
- [Extended Certification Periods](#): Under authority provided in the Families First Coronavirus Response Act, allows states to extend certification periods and temporarily waive periodic report form submissions for households whose certification periods expire within a set timeframe, waiving 7 CFR 273.10(f)(5).
- [Telephonic Signature](#): USDA allowed states to document in writing in the case file that a client verbally attested to the information provided on the application, instead of requiring an audio recording of the verbal attestation to constitute a valid telephonic signature.
- [Suspend In-Person Application and Verification Submission](#): USDA allowed approved states to suspend in-person collection of applications and verification documents from households.
- [Claims](#): USDA allowed state agencies to suspend FNS regulations at 7 CFR 273.18(d) by allowing flexibility in the time frame for establishing or disposing of new claims. States are also permitted to suspend FNS regulations at 7 CFR 273.18(e)(1) and (e)(5) by not requiring collection of active recoupments of FNS overpayments, delaying collection on newly established overpayments, and not considering any payments delayed due to this suspension to be delinquent.
- [Fair Hearings](#): USDA allowed state agencies flexibility to extend the fair hearings process up to 120 days from receipt of the request for fair hearings that were already in process or for which requests are received. Also, the time frame for sending notices confirming oral withdrawal requests may be extended

up to 30 days from receipt of the request for such requests received during this same timeframe. FNS also encouraged states to use existing flexibility to conduct hearings by alternate means, such as telephone or video conference, when possible, to meet the standard required time frames.

- [Extend Administrative Disqualification Hearings \(ADH\) Timeframes](#): USDA allowed state to suspend all adjudication timeframes associated with Administrative Disqualification hearings.
- [IRS 2021 Child Tax Credit and Advanced Child Tax Credit Payments](#): Early payments from the Internal Revenue Service (IRS) of 50 percent of the estimated amount of the Child Tax Credit that a taxpayer may claim on a 2021 tax return during the 2022 tax filing season. In some cases, these monthly payments will be made beginning July 15, 2021, and through December 2021.
- [Suspend Treasury Offset Program Temporarily \(COVID-19\)](#): This waiver suspended collection of program integrity claims, recoupments, and forgive delinquent payments by not considering households that miss a claim payment delinquent.

TRANSITION GUIDANCE FOR ACTIVE WAIVERS

Waiver	Special Exit Strategies	Policy Sections	Strategies to Assist Individuals and Families After Waivers End
Emergency Allotment (EA) Waiver	<p>As long as monthly EA Waiver extension requests are approved, Emergency Allotments will end at the end of the last day of the month following the month in which the Federal or State Public Health Emergency (PHE) ends, whichever is earlier.</p> <p>The State will notify counties as soon as it is known that the waivers are ending.</p>	<p>N/A</p>	<p>To help address food insecurity when the emergency allotment waiver ends:</p> <ul style="list-style-type: none"> • Provide information to households about other North Carolina food and nutrition resource programs they may be eligible for (such as WIC, Commodity Supplemental Food Program, TEFAP) • Provide information to households about local Food Banks, Helping Agencies, etc. • Provide dates and time of food drives and additional programs that may be able to provide assistance • Contact the Food Banks and the Helping Agencies to inform them of the waivers ending and that they may have an increase in referrals.

			<p>Once we know the end date of maximum allotments, the State will notify counties as well as use available methods to notify impacted households. If they are able, counties are also encouraged to provide outreach to households who will see a decrease in their food and nutrition benefits when the maximum allotments end. The report in FAST Help (titled FNS Max Allotments With Benefit Breakdown) lists households that will be impacted by the ending of the maximum allotments. This report will be updated once the State knows that Max Allotments are coming to an end so that it can be used by counties to support outreach efforts.</p> <p>Counties are encouraged to inform FNS households at every opportunity that this is a temporary situation and should not be expected to continue on a permanent basis.</p> <p>For seniors in your caseload that may be impacted, consider reaching out to your Area Agencies on Aging to connect them to resources. Area Agencies on Aging are offices established through the Older Americans Act that facilitate and support programs addressing the needs of older adults in a defined geographic region and support investment in their talents and interests. In North Carolina, AAAs are located within regional Councils of Government.</p> <p>Link to more information on Area Agencies on Aging: https://www.ncdhhs.gov/divisions/aging-and-adult-services/adult-day-services/daas-area-agencies-aging</p>
