PUBLICATION DATE: January 2015

INTRODUCTION

In recent years there have been two separate reports(Annual Statistical Report for LMEs and the Admissions Report for LMEs) that have provided descriptive statistics and trends in the public community mental health system in North Carolina. In an effort to provide a single source of information that adequately describes the type of clients served at the clinical, demographic and geographic level these two reports have been combined into a single report for State Fiscal Year 2014. While similar in format and table construction to the previous reports, the intent of this report is to provide an integrated look at major service indicators and measures.

Figure 1
Selected Indicators and Percent Change Over Time
State Totals, Fiscal Year 2014, 2009, 2004

Indicators	Fiscal Year			Percent Change FY14 vs. FY09
	FY14	FY09	FY04	
Active Caseload Start of Fiscal Year	236,300	210,114	247,189	12.46%
Total Admissions	109,262	116,449	87,667	-6.17%
Total Terminations	78,722	75,976	93,861	3.61%
Active Caseload End of Fiscal Year	266,840	250,587	240,995	6.49%
Persons Served	345,562	326,563	334,856	5.82%

TABLE I

Client Activity and Utilization (Table I) reflects admission rates, active caseload at the beginning of the fiscal year, total admissions and the total number of persons served by MCO/LME. There were **226,781** active cases on July 1, 2013 and **90,082** total admissions (first and readmissions combined) during the fiscal year. A total of **316,863** persons were served during fiscal year 2014 as indicated by adding first and readmissions to the active cases (excluding those on Inactive Status and TASC Clients) on July 1, 2013. Graph 1 depicts the number of clients served at the MCO/LME for the last ten years. .

Admission rates reflect the total number of admissions to an MCO/LME during the fiscal year per 100,000 population in the catchment area. Admission rates are useful in that they allow comparisons among geographic areas as well as special population subgroups by adjusting the effects of population size. Admission rates were selected instead of utilization rates because of their greater accuracy.

The statewide admission rate was **905** admissions per 100,000 population. The admission rate ranged from a low of **423** per 100,000 reported by Alliance to a high of **1,575** per 100,000 population reported by Eastpointe.

**TABLE I
CLIENT ACTIVITY AND UTILIZATION BY NAME
NORTH CAROLINA LMES
FY2013-2014**

	ADMISSION RATE*	ACL 7/1/2013	TOTAL ADMISSIONS	TERMINATIONS	PERSONS SERVED
Alliance Behavioral	423	15,347	7,569	2,227	22,916
Cardinal Innovations	713	37,320	17,435	30,815	54,755
Centerpoint	1,046	19,166	5,675	482	24,841
Coastal Care	563	9,198	3,722	659	12,920
Eastpointe	1,575	47,731	13,002	94	60,733

Sandhills	1,248	32,138	13,553	3,120	45,691
Smoky Mountain	1,446	26,518	15,616	19,681	42,134
STATE TOTAL	905	226,781	90,082	59,365	316,863

* Rate per 100,000 N. C. Populaton (2014 Population Estimate.)
Admission Rate = Total Admissions / Population x 100,000.

Please Note: There is a difference in Total Admissions, Terminations and Persons Served from the previous pages (Figure 1), when compared to the State Total in Table 1. The reason for this difference is that TASC clients are included in Figure 1, but not Table 1. TASC clients were not included in Table 1 as they are not associated with an LME.

This graph reflects the number of persons served by the **9** LMEs for the time period FY2005 through FY2014. This data reflected in this graph does not include persons on inactive st

A total of **345,562** clients were served by LMEs during **FY2014** representing a **2.34 %** increase over the **337,676** during **FY 2005**.

TABLE 2

Table II reflects the number of persons served in each of the MCO/ LMEs by age and disability. The age of the client was calculated as of 6-30-13 and the disability of the client was based on the diagnosis assigned to the client on the IPRS/Medicaid paid claim.

A total of **345,562** persons were served in the MCO/LMEs during FY14. Persons Served, is calculated by totaling the active caseload on July 1, of the fiscal year (excluding those clients on Inactive Status) and all admissions.

Of the **345,562** clients served, 72 percent (**250,108**) were mentally ill, **6** percent (**19,341**) were developmentally disabled, and **22** percent (**76,113**) were substance abusers. Within each disability the percent of children served (0-17) ranged from **1.25** percent (**914**) of substance abusers, to **27** percent (**5,151**) of the developmentally disabled. The percent of children served in the mental health category was **26** percent (**65,036**).

TABLE 2B

Table 2B reflects the number of persons served for each county that falls within the LME's catchment area. Table 2 on the other hand reflects number of persons served by the LME regardless of the county of residence.

This difference is pointed out in case the reader is trying to compare the two tables.

TABLE 3

The data reflected in this table included admissions by diagnosis and marital status. The aggregate groupings of diagnosis are based on the ICD9, International Classification of Diseases, 9th Revision Clinical Modification.

Of the diagnosis reported at the time of admission, substance abuse (**25,628**) accounted for (**23.5%**). However, when looking at Psychiatric Diagnosis only, which represented (**67%**) of all diagnosis, major depressive disorders (**16,974**) accounted for (**15.5%**). (**8,574**) of all admissions while alcohol abuse accounted for (**7.8%**).

In the marital category the largest group is those who are single, representing **70.4%** of all admissions.

*TOTALS DO NOT ALWAYS EQUAL 100 % DUE TO ROUNDING

** DERIVED FROM ICD-9 CODING

TASC ADMISSIONS ARE INCLUDED IN TABLE 3.

TABLE 3A

The data in this table reflects admission characteristics by race, sex and age categories.

Males represented a majority of the total admissions **55.7%** with females representing **44.3%** of the total admissions.

When looking at race categories during FY14 non-white admissions numbered **43,668** or **40%** of the total reported. Of the non-white admissions reported **1.9%** was American Indians.

The age group composition of LME's admissions reflects that **24.5%** fell within the 25 to 34 age group. When admissions are grouped by the three major age groups, **17.8%** were 0-17, **80.1%** was between 18-64 years of age and **2.0%** were 65 years and older.

TABLE 3B

Table 3B reflects the duplicated number of admissions for each of the LME's by age and disability. The age of the client was calculated as of 6-30-14 and the disability of the client was based on the diagnosis assigned to the client on the IPRS/Medicaid paid claim.

Of the **109,262** clients admitted, **67** percent (**73,169**) were mentally ill, **1.34%** percent (**1,463**) were developmentally disabled, and **32%** percent (**34,630**) were substance abusers. Within each disability the percent of children served (0-17) ranged from **2.3%** percent (**795**) of substance abusers, to **49%** percent (**720**) of the developmentally disabled. The percent of children served in the mental health category was **25%** percent (**17,968**).

TABLE 3C

Table 3C reflects the unduplicated number of admissions for each of the MCO/LME's by age and disability. The age of the client was calculated as of 6-30-13 and the disability of the client was based on the diagnosis assigned to the client on the IPRS/Medicaid paid claim.

Of the **108,170** clients admitted, **67 percent (72,920)** were mentally ill, **1.4 percent (1,463)** were developmentally disabled, and **31 percent (33,787)** were substance abusers. Within each disability the percent of children served (0-17) ranged from **2 percent (775)** of substance abusers, to **49 percent (720)** of the developmentally disabled. The percent of children served in the mental health category was **25 percent (17,950)**.

TABLE 4

This table includes selected indicators for all terminations while the proceeding four tables focused on admissions. This table was included since diagnostic classification may change during the course of treatment and final diagnosis should be more accurate.

The relationships described for admission diagnosis remained true for termination diagnoses, although absolute numbers and percentages changed. Substance abuse accounted for **32.8%** of terminations versus **23.5%** of admissions. Adjustment disorders accounted for **2.5%** of terminations versus **4.1%** of admissions while major depression disorders accounted for **9.9%** versus **15.5 %** at admission.

Table 5

Table 5 reflects the unduplicated count of persons served in each of the MCO/LME's by age and disability. The age of the client was calculated as of 6-30-14 and the disability of the client was based on the diagnosis assigned to the client on the IPRS/Medicaid paid claim.

A total of **343,211** persons were served in the MCO/LME's during FY14. Persons Served is calculated by totaling the active caseload on July 1, of the fiscal year (excluding those clients on Inactive Status) and all admissions.

Table 6

The data reflected in this table included screenings by time line and after triage.

Of the screenings reported **(30,280)** clients were referred for Basic benefits which accounted for **77%** of all screenings and Crisis **(5,902)** which represented **15%** of all screenings. For the timeline of the screenings reported **(23,086)** clients were categorized as Routine which accounted for **59%** of all screenings. **(8,573)** were categorized as Urgent which accounted for **22%** of all screenings. **(7,346)** were categorized as Emergent which also accounted for **19%** of all screenings.

Table 7

The data in these tables reflects the drug of choice for all 34,630 LME/TASC admissions with a substance abuse principle diagnosis.

Marijuana/Hashish was the drug of choice (11,408) admissions which represented 33% of all substance abuse admissions. Alcohol was the drug of choice for (8,711) admissions which represented 25% of all substance abuse admissions. Other Opiates was the drug of choice for (4,058) admissions which 12% of all substance abuse admissions.
