RE:
OVERNIGHT RESPITE SERVICE AS A HOME AND COMMUNITY BLOCK
GRANT SERVICE

In 2011, a pilot study was authorized under Session Law 2011-104 by the General Assembly to
develop a new service called Overnight Respite Service. This pilot allowed a maximum of four
potential pilot sites. What made this service unique was that these pilot Overnight Respite
Service programs would be housed and operated in the same facility as a certified adult day
care or adult day health program. These Overnight Respite Service programs were approved
and monitored by the Division of Health Service Regulation (DHSR).

This pilot was completed in 2014 and Session Law 2015-241 legislation was passed in FY 2016
allowing Overnight Respite Service to be a separate 24-hour licensed service under the same
facility, operated from a certified adult day care or adult day health program. The new Statute is
identified as General Statute 131D-61- Licensure of Overnight Respite Programs.

The Division of Health Service Regulation completed the required Administrative Procedure Act
(APA) rule process for this service in 2017. DHSR has initiated the Overnight Respite Service
licensure process and has issued licenses to two providers in the state to date. Each of the
providers were participants in the pilot.

As part of Session Law 2015-241, the Division of Aging and Adult Services (DAAS) was
directed to add the Overnight Respite Service to the menu of Home and Community Care Block
Grant (HCCBG) funded services. The addition of the Overnight Respite Service to the current
menu of HCCBG-funded services brought the total number of services from 18 to 18. No
additional funds were added to the HCCBG to fund the Overnight Respite Service. If an Area
Agency on Aging has an Overnight Respite Service provider operating in their region, and the
HCCBG County Planning Committee determines that HCCBG funds will be used to fund
Overnight Respite Service in a county, the funding will be drawn from the county’s current
HCCBG allocation.
The Respite Team at the Division of Aging and Adult Services has reviewed the legislation which outlined the definition of the service and has developed the service standards with respect to the policies and requirements of the HCCBG Fund and the Older Americans Act. These Standards are included with this letter.

The monitoring tool for Overnight Respite Service has also been included, although no monitoring will need to be completed by a AAA until a Region begins funding the service. The Service Code for Overnight Respite Service has been added to the ARMS system. The Service Code is 320.

Please note that the Overnight Respite Service will be provided in the same facility as a certified adult day care or adult day health program, but overnight respite is a different and separate service from adult day care or adult day health because it is a 24-hour licensed service. Overnight Respite Service is not an extension of adult day care or adult day health programs. It is hoped that this new service will provide another important option for clients and their caregivers.
