#### CONFLICT OF INTEREST ACKNOWLEDGEMENT AND POLICY - INDIVIDUAL

A conflict of interest is a situation in which the individual and/or independent contractor has competing professional or personal interests (usually in a financial or economic nature). Such competing interests can make it difficult to fulfill his or her duties and responsibilities impartially. A conflict of interest exists even if no unethical or improper act results from it. A conflict of interest can create an appearance of impropriety that can undermine confidence in the person, profession, or court system.

As an independent contractor for the Department of Health and Human Services (DHHS) the contractor warrants and affirms the following:

His/her business is independent and that he/she markets his/her professional services to others, except to the extent necessary to avoid a conflict of interest.

The position is not used for financial gain beyond that received directly for this service nor will the work performed on this project create an appearance of a conflict of interest for me or a member of my family or others with whom I have business or other ties.

When a conflict of interest is identified, the contractor will disclose it in writing to the contract administrator listed on the contract.
