

**Data Submission on Respondents Receiving Treatment under
Involuntary Commitment (IVC) in Designated Facilities**

NCGS §122C-294(b)

Report to the

**Joint Legislative Oversight Committee on
Health and Human Services
and
Fiscal Research Division**

By

North Carolina Department of Health and Human Services

October 13, 2023

Introduction

G.S. §122C-255 mandates biannual reporting to the Division of Mental Health, Developmental Disabilities, and Substance Use Services (“Division”) by certain facilities that provide care to people under involuntary commitment (IVC) orders. A facility is required to submit this report if it:

1. Falls under the category of nonhospital medical detoxification, facility-based crisis service, or inpatient hospital treatment;
2. Is not a State facility under the jurisdiction of the Secretary of Health and Human Services; and
3. Is designated by the Secretary of Health and Human Services as a facility for the custody and treatment of individuals under a petition of involuntary commitment pursuant to G.S. 122C-252 and 10A NCAC 26C .0101.

Subject facilities must submit the following data on January 1 and July 1 of each year:

- (1) The number and primary presenting conditions of individuals receiving treatment from the facility under a petition of involuntary commitment.
 - (1a) The transportation method utilized by individuals admitted under a petition of involuntary commitment to the 24-hour facility.
 - (1b) The number of individuals moved to voluntary status at any time between arrival at the 24-hour facility and completion of the required 24-hour examination.
- (2) The number of individuals for whom an involuntary commitment proceeding was initiated at the facility, who were referred to a different facility or program.
- (3) The reason for referring the individuals described in subdivision (2) of this section to a different facility or program, including the need for more intensive medical supervision.

G.S. §122C-294, “Local plan and data submission”, requires the following:

- (b) The Department shall provide the data collected by the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services concerning the number of respondents receiving treatment under involuntary commitment in designated facilities to the Fiscal Research Division and the Joint Legislative Oversight Committee for Health and Human Services on October 1 of each year beginning in 2019 and any other time upon request.

There are 70 facilities covered by this reporting requirement for this reporting period. Of these 70, there were 25 that had at least two units designated that serve specific age groups, presenting conditions, or other specialized populations. Each facility with more than one unit submits reports per unit. Facilities that are approved to treat individuals under inpatient commitment through their licensed facility-based crisis and nonhospital medical detoxification services submit reports per service. The 70 reporting facilities include the following:

- 38 Acute Care Hospitals / Medical Centers,
- 9 Psychiatric Hospitals,
- 12 Facility-Based Crisis (FBC) centers,
- 1 Nonhospital Medical Detoxification (NHMD) center,

- 6 Combination FBC/NHMD centers, and
- 4 Veterans Affairs Medical Centers.

The list of designated facilities is dynamic. Some facilities did not have a designation for the entire SFY 2022-23 fiscal year, and others closed due to staffing shortages or remodeling efforts. Where applicable, those closures are noted throughout the report. An up-to-date list of [IVC-designated facilities](#) can be found on the NCDHHS website.

Reports Submitted

This report covers the information provided by the IVC-designated facilities for SFY 2022-2023 and represents the information received for July-December of 2022 and for January-June of 2023, respectively.

The total reported number of IVC admissions for SFY 2022-2023 was 39,376. When added to the number of individuals for whom proceedings were initiated after voluntary admission, that total was 39,659. For people who encountered multiple involuntary admissions during this reporting period, each admission is included in those counts.

The Division has actively worked with facilities to improve consistency and uniformity in meeting reporting obligations under this section. For SFY22, the percentage of IVC-designated facilities reporting monthly was almost at 100%, with every facility submitting no less than ten (10) of twelve (12) reports. This year, that percentage has dropped to an average of slightly higher than 96% over the twelve-month timeframe. The Division continues to actively work with and support facilities to improve the consistency in meeting this obligation as well as the accuracy of the information that is submitted monthly.

Reports that do not cover the entire six-month period will be noted accordingly. An asterisk (*) appearing in a report is indicative of no reports being received for that entire six-month reporting period identified (or portion thereof). The Division looks forward to continuing to work with facilities to help them further demonstrate improved reporting in subsequent years.

Reports that have all zeros in the reporting blocks indicate that the facility submitted monthly reports but did not have any admissions of persons under IVC orders, nor did they begin IVC proceedings on individuals who were admitted voluntarily. Unless otherwise noted, the facility reportedly serves both males and females.

AdventHealth Hendersonville – Women’s Behavioral Health Unit

County: Henderson

Facility Type: Inpatient Hospital

Population Served: Women 18 and older, also Eating and Nervous Disorders
