

**Data Submission on Respondents Receiving Treatment under
Involuntary Commitment (IVC) in Designated Facilities**

G.S. §122C-294(b)

Report to the

**Joint Legislative Oversight Committee on
Health and Human Services
and**

Fiscal Research Division

By

**North Carolina
Department of Health and Human Services**

October 1, 2026

Introduction

G.S. §122C-255 mandates biannual reporting to the Division of Mental Health, Developmental Disabilities, and Substance Use Services (“Division”) by certain facilities that provide care to people under involuntary commitment (IVC) orders. A facility is required to submit this reporting if it:

1. falls under the category of nonhospital medical detoxification¹, facility-based crisis service, or inpatient hospital treatment;
2. is not a State facility under the jurisdiction of the Secretary of Health and Human Services; and
3. is designated by the Secretary of Health and Human Services as a facility for the custody and treatment of individuals under a petition of involuntary commitment pursuant to G.S. 122C-252 and 10A NCAC 26C .0101.

Subject facilities must submit the following data on January 1 and July 1 of each year:

- (1) The number and primary presenting conditions of individuals receiving treatment from the facility under a petition of involuntary commitment.
 - (1a) The transportation method utilized by individuals admitted under a petition of involuntary commitment to the 24-hour facility.
 - (1b) The number of individuals moved to voluntary status at any time between arrival at the 24-hour facility and completion of the required 24-hour examination.
- (2) The number of individuals for whom an involuntary commitment proceeding was initiated at the facility, who were referred to a different facility or program.
- (3) The reason for referring the individuals described in subdivision (2) of this section to a different facility or program, including the need for more intensive medical supervision.

G.S. §122C-294, *Local plan and data submission*, requires the following:

- (b) The Department shall provide the data collected by the Division of Mental Health, Developmental Disabilities, and Substance Use Services concerning the number of respondents receiving treatment under involuntary commitment in designated facilities to the Fiscal Research Division and the Joint Legislative Oversight Committee for Health and Human Services on October 1 of each year beginning in 2019 and any other time upon request.

There are 70 facilities covered by this reporting requirement for this reporting period. Of these 70, there were 29 that had at least two units designated that serve specific age groups, presenting conditions, or other specialized populations. Each facility with more than one unit submits reports per unit. Facilities that are approved to treat individuals under inpatient commitment through their licensed facility-based crisis and nonhospital medical detoxification services submit reports per service. The 70 reporting facilities are broken down thus:

- 36 Acute Care Hospitals / Medical Centers,
- 12 Psychiatric Hospitals,
- 14 Facility-Based Crisis (FBC) centers,
- 4 Combination FBC/NHMD centers, and
- 4 Veterans Affairs Medical Centers.

The list of designated facilities is dynamic. Some facilities do not hold designation for the entire fiscal year and others may drop their designation during this same time frame. During SFY26 units/facilities were

¹ The service Nonhospital Medical Detoxification has been replaced by Medically Monitored Inpatient Withdrawal Management Service in service definition and clinical coverage policy. That change has not occurred in the North Carolina Administrative Code or the General Statutes to date.

closed for a month or more at a time due to staffing shortages, remodeling, or low patient census as reflected herein. An up-to-date list of [IVC-designated facilities](#) can be found on the NCDHHS website.

Reports Submitted

This report covers the information provided by the IVC-designated facilities for SFY 2025-2026 and represents the information received for July-December of 2025 and for January-June of 2026 respectively.

The total reported number of IVC admissions for SFY 2025-2026 was 40,676. When added to the number of individuals for whom proceedings were initiated after voluntary admission, that total was 40,994. For people who encountered multiple involuntary admissions during this reporting period, each admission would be included in those counts.

The Division has actively worked with facilities to improve consistency and uniformity in their meeting reporting obligations under this section. After achieving an almost 100% reporting rate in SFY22, the average dropped slightly each fiscal year since. For SFY26, the reporting rate averaged just under 96%. The Division continues to actively work with and support facilities to improve the consistency in meeting this obligation as well as the accuracy of the information that is submitted monthly.

Reports that do not cover the entire six-month period are noted accordingly. An asterisk (*) appearing in a report is indicative of no reports being received for that entire six-month reporting period identified (or portion thereof). The Division looks forward to continuing to work with facilities to help them further demonstrate improved reporting in subsequent years. Where a facility reported that fewer than 11 individuals were served during a six-month reporting period, in an effort to help protect the confidentiality of those individuals, that data has been suppressed and is reflected as <11.

Reports that have all zeros in the reporting blocks indicate that the facility submitted monthly reports but did not have any admissions of persons under IVC orders, nor did they begin IVC proceedings on individuals who were admitted voluntarily. Any exceptions to the facility/unit serving males and females are noted as a Population Served (only women, transgender, all genders).
