Introduction

Pursuant to N.C.G.S. §7B-1302(b), the NC Department of Health and Human Services (DHHS) shall report revenues and expenditures of the North Carolina Children's Trust Fund (NC CTF) to the Joint Legislative Commission on Governmental Operations. DHHS, through the Division of Social Services (DSS), provides the staff and support services for implementing the Children's Trust Fund in accordance with N.C.G.S. § 7B-1301 and offers this report on the Fund's revenues and expenditures for State Fiscal Year (SFY) 2024-2025.

SFY 2024-2025 Children's Trust Fund Activities

The North Carolina Children's Trust Fund programming supports cross-agency collaborative, community-based initiatives to provide outreach, support, and services to individuals and families identified as being at-risk of compromised health and safety. They strive to eliminate or reduce those risks by promoting protective factors that strengthen and support families.

In SFY 2024-2025, North Carolina Children's Trust Program Services supported eight community-based agencies to provide Respite programs to 464 children and 339 parents in 320 families. Respite care is a short-term service provided in the temporary absence of the regular caregiver to children who are at risk of victimization, who have experienced victimization, and/or who have disabilities, chronic or terminal illness. This service is provided within or outside the child's home and is intended to enable the family to stay together and to keep the child(ren) living at home and in the community.

These voluntary, free services helped increase the capacity of parents and caregivers to care for their children, helped children develop healthy coping mechanisms, improved caregiver-child relationships, and reduced family stress. In addition, these eight Children's Trust Fund Programs demonstrated collaborative relationships with community partners and meaningful family engagement.

Children's Trust Fund Programs were required to meet the following requirements:

1. Provide voluntary services based on the Principles of Family Support Practice.
2. Demonstrate a commitment to meaningful parent engagement and leadership opportunities.
3. Provide prevention services that target populations most at risk of child abuse or neglect.
4. Promote the five protective factors linked to lower incidence of child abuse and neglect.
5. Describe emerging evidence that demonstrates respite services' positive impact on children and their families in their application.
6. Use evaluation tools to demonstrate positive outcomes for children and families.

In SFY 2024-2025, the Division of Social Services obligated \$387,040 in North Carolina Children's Trust Fund dollars including a 25% agency match of \$99,224 to support the following eight community-based agencies. The eight agencies listed in this report were funded with the NC CTF through a competitive Request for Applications (RFA) process starting in SFY 2021-2022 as part of a 3-year grant cycle with a three-year extension.
