Office of Health Equity and Engagement
Core Goals

Catalyze tools and processes that ensure diversity and health equity competencies, transform infrastructure, and mobilize the existing and future DHHS staff, programs, and services to eliminate health disparities.

Integrate health equity principles into NCDHHS public health programs, policies, data systems, and funding structures.

Mobilize and engage partners to develop and implement evidence-based strategies that address health disparities and long-standing inequities including structural and social determinants of health.

Catalyze tools and processes that ensure diversity and health equity competencies, transform infrastructure, and mobilize the existing and future DHHS staff, programs, and services to eliminate health disparities.
