

FACT SHEETFunding for NC Senior Centers

2023-24 LEGISLATIVE PRIORITIES

#2

Increase the Senior Center General Purpose appropriation by \$1,265,316 in recurring funds.

Senior Center General Purpose (SCGP) funding is currently \$1,265,316, which is not meeting the demands of a growing older adult population.

The Background

- Senior centers offer programs that promote health, improve access to services, and decrease social isolation.
- Senior centers can become certified as centers of merit or excellence. Certification levels are based on progressively higher levels of programming.
- SCGP funding is distributed based on certification status via a share system. This system provides an incentive for pursuing certification.

The Issues

- SCGP funding helps expand programs and staffing.
- Adjusting for inflation, SCGP funding has decreased by 18% since 2004, while the population 60+ has grown by 82%.
- The number of certified centers has increased over time, further reducing the value of a SCGP share. The adjusted value of a single share has decreased by 61% since 2004.

The Solution

Increase Senior Center General Purpose funding by \$1,265,316 in recurring funds.

- Distribute \$500,000 evenly amongst all 100 counties to help offset increased administrative costs.
- Allocate the remaining \$765,316 for the Division of Aging and Adult Services certification program to increase the allocation each center receives.
